Technical Data Sheet
HECK AGG A1
(Reinforcement mesh A1)

HECK AGG A1:	Alkali-resistant textile glass fabric mesh	
Properties:	Reinforcement mesh in suitable base coats and for the reinforcement of HECK composite heat insulation systems	
Areas of Application:	Indoor and outdoor processing	
Composition:	Fabric mesh of coated textile glass with special finishing for slip resistance / dimensional stability and alkali resistance; fabric resistant to rotting	
Technical Data:	**Mesh width:**	4 x 4 mm
	Surface weight:	165 ± 5 g/m²
	Tear resistance	
	in the condition as supplied:	≥ 1.8 kN/5 cm
	after artificial ageing acc. to ETAG:	≥ 0.9 kN/ 5cm
Consumption:	1.1 m²/m²	
Colour:	red / black	
Image:		
Delivery dimensions:	Rolled good with a length of 50 m, width 1.1 m	

For application instructions, please refer to the applicable technical data sheets, the HECK processing guidelines and the HECK detail drawings.

The information given herein is based on our present knowledge and experience. However, it implies no liability on our part. We reserve the right to make changes according to technological progress or further developments. This information serves to describe the properties of our products and services, and no warranty is intended or implied. The customer is not released from the obligation to conduct careful inspection of the functions and applications of incoming goods by qualified personnel. This is also valid with regard to existing third party intellectual property rights. Reference to trade names used by other companies is neither a recommendation nor does it imply that other similar products could not be used. With this publication, earlier Technical Data Sheets become invalid
