In accordance with s100ZA of the Town & Country Planning Act 1990 (as amended), this letter gives notice of the requirement to place pre-commencement condition(s) on any permission arising from the above application.

The required condition(s), and the reason(s) for them are as follows:

No development shall take place (including demolition, ground works, vegetation clearance) until a construction environmental management plan (CEMP: biodiversity) has been submitted to and approved in writing by the local planning authority. The CEMP (Biodiversity) shall include the following.

- a) Risk assessment of potentially damaging construction activities.
- b) Identification of "biodiversity protection zones".
- c) Practical measures (both physical measures and sensitive working practices) to avoid or reduce impacts during construction (may be provided as a set of method statements).
- d) The location and timing of sensitive works to avoid harm to biodiversity features.
- e) The times during construction when specialist ecologists need to be present on site to oversee works.
- f) Responsible persons and lines of communication.
- g) The role and responsibilities on site of an ecological clerk of works (ECoW) or similarly competent person.
- h) Use of protective fences, exclusion barriers and warning signs.

The approved CEMP shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details, unless otherwise agreed in writing by the local planning authority.

Reason - To ensure the protection of wildlife habitats in the locality, pursuant to policy EN15 of the Core Strategy for Manchester.

Please confirm your agreement to the above conditions within 10 working days. If we do not hear from you within this period, we will impose the conditions on any permission. Please note that this information is provided without prejudice to any final decision in relation to this application.
