

All dimensions to be checked on site prior to the commencement of works.

Any drains passing under building to be exposed & encased in 150mm conc.

The image contains two line drawings. On the left is a simple drawing of a garage with a vertical wall, a horizontal base, and a sloped roof. On the right is a more detailed drawing of a house with a gabled roof, two chimneys, a central door, and two windows. A downspout is shown on the right side of the house.

The image displays two architectural floor plans of a house, likely a semi-detached property given the 'Side' label on the right plan. The left plan is a detailed layout with rooms labeled 'kitchen', 'dining', and 'lounge'. It includes a staircase, a fireplace, and a bay window. The right plan is a simplified version of the same layout, with the label 'Side' at the top right.

Scale Bar 1:100

A horizontal scale bar with a blue background and white markings. It is labeled '0' at the left end and '5m' at the right end. Major tick marks are placed at 1m intervals, labeled '1m', '2m', '3m', and '4m'. The bar is divided into five equal segments, each representing 1 meter.

A line drawing of a two-story house. The house has a gabled roof with a chimney on the right side. The front facade features a central entrance door with a small transom window above it. To the left of the door is a small window. To the right of the door is a large window with a decorative frame. The house is shown from a side-on perspective, with a dashed line indicating the ground level.
