Date: 11 June 2024

Dear Sir/Madam,

Application under Section 96a of the Town & Country Planning Act 1990 (as amended) for a Non-Material change to a planning permission
Application No: 140168/NMC/2024
Description: Non-material amendment to planning approval 134504/FO/2022 to enable the discharge of condition no. 23 over 6 phases of development
Location: Olympic Freight Terminal, Bennett Street, Manchester, M12 5NL

I refer to your application for a non-material amendment to planning permission reference 134504/FO/2022.

The revisions to the approved scheme relate to changes to allow the rewording of condition no. 23 to enable this condition to be discharged on a phased basis.
It is considered that the proposed revisions would not have a detrimental impact in terms of the visual appearance, and amenity of the proposed residential properties, and that the wording of condition no.23 be amended to reference the proposed phased approach, and that reference in made in condition no.2 to the List of plots within each of the proposed phases received 31.05.2024 and the Site Layout Phasing plan ref: KH06-A-800 received 05.06.2024.

Following an assessment of the details submitted, I can confirm that the proposed amendment is considered to be of a non-material nature and acceptable to the City Council as the Local Planning Authority. The City Council is satisfied that the proposed changes will not result in any significant material alterations to the planning approval.

Therefore I can confirm that the proposed amendments are hereby **approved**.

It should be noted that this letter of consent does not supersede the decision notice attached to planning permission 134504/FO/2022. These documents should be read in conjunction with one another. Therefore, the conditions previously applied to approval 134504/FO/2022 still apply to this development. However, due to the acceptance of the amendments outlined above, the following amended conditions also now apply:

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

Location plan ref: KH/BSM/LP/01 received 26th July 2022;
Acacia House type floor plans ref: 22041(PL)200 ;

Received 24th April 2023

AS AMENEDED BY :
Planning layout KH006 A-100 rev U
Larger scale extract plan showing revised layout arrangements.

Received 14th February 2024

AS AMENDED BY:
List of plots within each of the proposed phases received 31.05.2024
Site Layout Phasing plan ref: KH06-A-800 received 05.06.2024.

Reason - To ensure that the development is carried out in accordance with the approved plans, pursuant to policies SP1 and DM1 of the Manchester Core Strategy (2012). Paragraph 2 Following an assessment of the details submitted, I can confirm that the proposed amendments are considered to be of a non-material nature and acceptable to the City Council as the Local Planning Authority. The City Council is satisfied that the proposed changes will not result in any significant material alterations to the planning approval.

23) No phase of development hereby permitted shall be occupied until details of the implementation, maintenance and management of the sustainable drainage scheme for that phase have been submitted to and approved by the local planning authority. The approved scheme shall be implemented and thereafter managed and maintained in accordance with the approved details for that phase. Those details shall include:

o Verification report providing photographic evidence of construction as per design drawings, which shall include flow control and attenuation components;

o As built construction drawings if different from design construction drawings;

o Management and maintenance plan for the lifetime of the development which shall include the arrangements for adoption by any public body or statutory undertaker, or any other arrangements to secure the operation of the sustainable drainage scheme throughout its lifetime.

o Management and maintenance plan for the culverted ordinary watercourses which shall include confirmation of responsible party.

o Evidence of post-installation survey and post-piling survey to confirm culvert integrity.

Reason- To manage flooding and pollution and to ensure that a managing body is in place for the sustainable drainage system and a maintenance mechanism for the lifetime of the development, pursuant to policies EN8, EN14, EN17 and DM1 of the Manchester Core Strategy (2012).

Should you wish to discuss the matter further, please contact Sue Wills using the details above.

Yours faithfully,

Julie Roscoe
Director of Planning, Building Control & Licensing
