THE BLOCKS

2nd July 2024
Manchester Council
Town and Country Planning

Dear Sir / Madam

Re: Application Number: Variation of condition 29 (EV charging) attached to planning permission referenced 134579/JO/2022 to allow changes to the provision.

Condition 29 for the apartments only.

I am writing to seek partial discharge of Condition 29 related to the EV provision to the apartments only.

I can confirm we have installed an EV dual charger has been installed to the carpark of the apartment block in line with the approved requirements.

Below is an image showing the dual outlet unit installed.

THINK OUTSIDE THE BLOCKS

EVA-07D-SE-RFID / EVA-07D-SE-RFID-C

PROJECT EV

7.3kW Pro Earth Floor AC Charger Dual Gun RFID
(63a Single Phase)

The Future of EV Charging

The EVA-07D-SE-RFID & EVA-07D-SE-RFID-C is a single-phase dual AC charging unit, packed with features, such as a no earth spike required installation. The dual gun charger is perfect for both domestic and commercial use with a market-leading five-year warranty.

This charger also has time shifting capabilities giving you the opportunity to save £100's per year*, a cable lock system for added security, free mobile monitoring app, and a dynamic load balancing system.

The EVA-07D-SE-RFID & EVA-07D-SE-RFID-C is ready out of the box and perfect for any domestic electric vehicle charging. The RFID unit comes with one RFID card as standard, with additional RFID cards (EV-RFID) available for purchase. Optional ground mounts (EV-GMEVA-D-2) & optional protection posts (EV-POST2) are available to purchase.

- TYPE 2 x2 SOCKETS
- DUAL GUN PRO EARTH
- CABLE LOCK SYSTEM
- 5 YEAR WARRANTY
- RFID CONTROL
- MID METERING

METHODS OF CONTROL

Plug & Charge - Project EV's ethos is to make charging electric vehicles easy and stress free for all. With the Plug and Play model you do not require any additional software or applications to control your EV charge point, you simply plug your car into a Project EV device, and the charge begins.

RFID - RFID Mode Charging is an easy simple way for users to control their EV Charge Point with a swipe of a card. One RFID card is supplied as standard, however extra cards can be supplied for those interested in public charging.

Project EV App - The FREE Project EV App allows you to choose and customise charging rates, prioritise off-peak charging to maximise savings (including via a solar charging mode) and create charging records, so you can see and control all your data.

Project EV Pro App - The Project EV Pro App is a unique EV charging platform, providing you the ability to utilise public charging capabilities and manage and control multiple chargers - from which you can generate a fluid revenue stream.

Google play | App Store

Note - EVA-07D-SE-RFID/EVA-07D-SE-RFID-C Datasheet - Information correct as of 01/21

*The amount of potential savings you can save per year depends on your energy provider, and your set energy tariff rates.
