

**OLDHAM ROAD, NEWTON HEATH
(PHASES 2 & 3 PLANNING APPLICATION)**

BROADBAND CONNECTIVITY ASSESSMENT

The project team will apply and liaise with BT Openreach for new sites to bring in all required incoming telecommunications, Fibre and all associated ducting into the properties for the infrastructure.

Virgin Media can also be applied for if required by the Client.

This will provide the following:

- The infrastructure that provides standard telephony services.
- A Cable television network.
- A dedicated 'multi-services' broadband network.

The information needed for registering the site includes:

- Location – Site address and ordnance survey grid references.
- Dates – The site start and required service dates.
- Plans – Plans of the development
- Build – Number of plots and their types (houses or apartments)
- Contact details – Which company is building the new properties and site contacts
