Please see email below from the school relating to the sports field and proposed fencing:

Hi Liam

With regards to the objection from Sports England around the use of the school playing fields, the school playing fields will not be affected by the plans for the proposal of the new fence, the fencing will be within the school's boundaries. The playing fields consist of 5 football pitches through the winter period and during

the spring and summer months consists of the 5 football pitches, 3 crickets pitches and 5 soft ball pitches. The fields will still be able to be played on throughout the school day as they are now and available to sporting clubs who hire the school facility in the evening and at weekends, which will be managed by our sports centre manager.

The reason as you are aware, for constructing the fencing is for the safeguarding of our students and staff.

I have provided a few photographs around the perimeter to show the distance of the fencing line we are proposing to the distance of the pitches to support the application, a few of the trees will be cut back to ensure the fencing goes up to the perimeter and is as far away from the pitches as possible.

Many thanks
