

6th February 2024

Site: Oxford Place Manchester

On Site Hotspots

DHI Excavations Ltd was asked to assess the cost of material disposal. A HB Geotechnical Service GD Report dated 17th November 2023 was issued to assess the material on site for disposal. The report was sent to the two local tips that will assess if the material is suitable for acceptance as Inert or Non-Hazardous contaminated soils.

Tip Assessments.

Both tips identified three hazardous locations (1) WS02 (2) WS04 (3) WS08. All three locations have been classified as hazardous by hydrocarbons. Classification levels for TPH (Total Petroleum Hydrocarbons) are as a guideline Inert/<500 mg/kg, Non-Hazardous 500 – 1,000 mg/kg and any level above 1,000 mg/kg is hazardous. All three are over 1,000 mg/kg.

Segregation

All three locations will require marking out and excavation prior to any excavations of the surrounding areas so no cross contamination occurs to remaining soils. The remaining locations if segregation completed and segregation statement issued to the Non-Haz tip will be accepted as Non-Haz contaminated. This includes the two locations containing asbestos fibres, as any asbestos quantified below 0.1% is acceptable as Non-Haz Asbestos Fibre soils on EWC code 17-05-04.

DHI visited site on the 11th January 2024 and along with a Kiernan engineer located the three locations and marked out accordingly. See pictures below:

Location WS02

Location WS04

Location WS08

DHI will supply a site pack for removal of all materials which will comprise of (1) Copy of DHI Waste Carriers Licence (2) Waste Consignment Notes for each Hazardous Load (3) Waste Transfer Note for Non-Haz Spoil (3) Copy of Tip Permits where all materials disposed to. There will be a hard copy issued to site and electronic copies for to be emailed to relevant personnel.

Disposal of WS02 & WS04

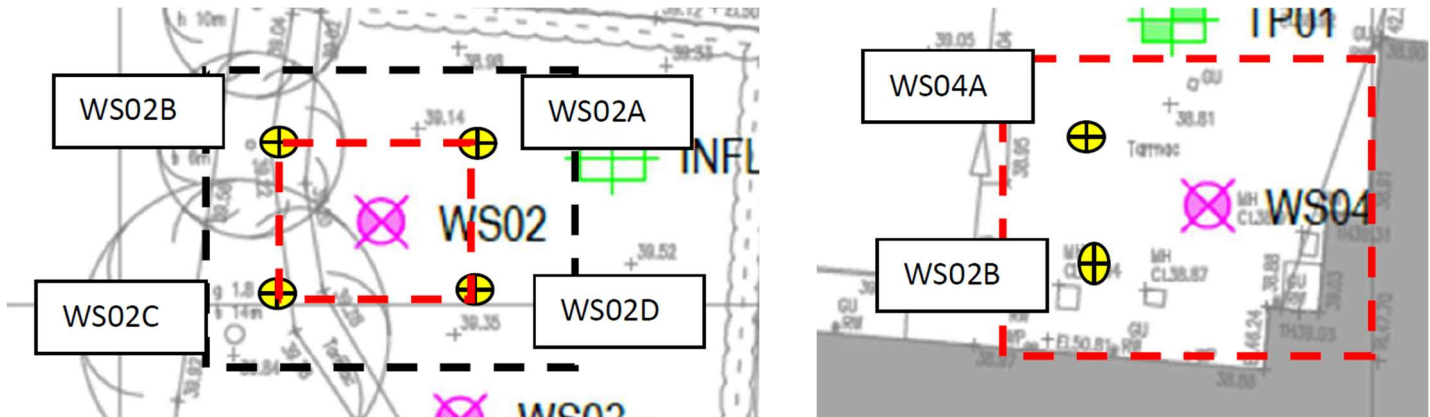

Re-testing was conducted around WS02 & WS04, (see re-test locations below).

4 x test around WS02.

2 x test around WS04 (as only half of this area is where the excavations will occur).

The 4 additional test results for area around WS02, all 4 are classified as Non-Hazardous contaminated.

The 2 additional tests around WS04 both tests have been classified as hazardous, due to TPH levels.

Excavation of Hazardous Areas and Disposal.

On the 5th February 2024 DHI Excavations Ltd were present on site, they managed the excavations of WS02 /WS04.

WS02 was excavated to all 4 points of the re-testing down to clay natural strata and loaded on to 8-wheel tipper vehicles and taken to Hazardous treatment facility at Maw Green Cheshire. See pictures below and copies of the waste consignment notes and a copy of the tip permit.

WS04 was excavated down to natural clay strata to all point of excavation required as part of this project. The material was then loaded on to 8w tipper vehicles and taken to Hazardous treatment facility at Maw Green Cheshire. See pictures below and copies of the waste consignment notes and a copy of the tip permit.

WS08 is nowhere near any of the current excavations, this location is the other side of the building.

As the hazardous areas have been segregated and disposed of to a licenced Hazardous disposal facility this will reduce risk of any cross contamination of the remaining material produced from any reduced level excavations.

Site has been advised to monitor any excavations further for any discolouring or odour. If any occurs, then it will be stockpiled and re-tested.

Pictures of segregation excavations.

Location WS02 Excavated

Location WS04 Excavated

On 5th February 2024 the material from the above excavations was transported to 3C waste treatment facility at Maw Green Landfill, Crewe. See below (1) Copies of Waste Consignment Notes for each load (2) Copy of the tip permit details (3) Copy of DHI Excavations Waste Carriers Licence.

Waste Consignment Notes

Hazardous Waste (England & Wales) Regulations 2005
Consignment Note: Consignee/Carrier/Consignor Copy
TIPPING REFERENCE: DW 2240313

PART A Notification Details

1. Consignment note code: **OXFORD/000001**

2. The waste described below is to be removed from:
 KIERAN CONSTRUCTION LTD, 1 OXFORD PLACE, MANCHESTER.

3. Consignee code: **OXFORD**

4. The waste will be taken to:
 J.L. WASTE, MAW GREEN LANDFILL SITE, MAW GREEN RD, COPPENHALL, CREWE, CHESHIRE, CW1 5NG. PERMIT No: EPR/S57722ID.

5. The waste producer was (if different from A2):
 KIERAN CONSTRUCTION LTD, ROWAN HOUSE, 8-10 ROUGH HEY RD, PRESTON, PR2 5AR.

PART B Description of the waste If continuation sheet used, tick here

1. The process giving rise to the waste(s) was: EXCAVATION ARISING

2. SIC for the process giving rise to the waste: 41.20/1

Description of waste	EWG Code	Qty	Chemical Component	Physical form	Hazard code	Container size, type, number
HAZARDOUS SOILS AND STONES	1 7 0 5 0 3	18T	TPH	SOLID	HP7, HP11	SW TIPPER

Additional carriage information

EWG Code	Packing group	UN Number	Proper shipping name	UN Class(es)	Special handling requirements
1 7 0 5 0 3	N/A	N/A	NONE	N/A	PPE

PART C Carrier's declaration

I certify that today I collected the consignment and that the details in A2, A4 & B3 are correct and I have been advised of any specific handling requirements.

Carrier name: ARDWICK CONTRACTS LTD.

On Behalf of: DHI Excavations Ltd - 11-13 Church Street, Farnworth, Bolton, BL4 8AG. WCL: CBOU181466

Carriers Registration No: CBOU389697

Vehicle Registration: **PN19 HRK**

Signature: *Lee Screen*

Date: 5/2/2024 Time: 09.45

PART D Consignor's declaration

I certify that the information above is correct, that the carrier is registered or exempt and was advised of any special handling requirements. All of the waste is labelled and packaged correctly. I have fulfilled my duty to apply the waste hierarchy as required by Regulation 12 of the Waste (England and Wales) Regulations 2011.

Consignor name: DAVID PARKINSON

Signature: *DBL*

Date: 5/2/2024 Time: 09.45

PART E Consignee's Certificate

Individual EWC Code(s) received	Quantity of each EWC code received (kg)	EWG code Accepted/Rejected	Waste Management operation (R or D code)
170503	14840	ACC	R05

I received this waste at the address given in A4 on: **05/02/2024 at 10:55**

Vehicle registration no: **PN19 HRK**

On behalf of (name, address, postcode):
Provetus Soils Management
Maw Green Soil Treatment Centre
Maw Green Road
Crewe CW1 5NG

Where waste is rejected please provide details:
BS7722ID

I certify that waste management licence/permit/authorised exemption no(s), authorises the management of waste described in B at the address given in A4.

Signature: *A. Stiller* Date: **05.02.24** Time: **10.55**
