

Headteacher
Mrs J Higginbotham

Statement of a scheme to ensure continuity of the existing sports use, curriculum and community, of the sports facilities.

This statement is to confirm the arrangements for sports use during the development period of the new school. The scheme below will be complied with throughout the building schedule.

Curriculum use

Sandilands Primary School currently uses both indoor and outdoor facilities for our curriculum coverage. Both KS1 hall and KS2 Gym are timetabled for games, gymnastics and dance activities with our outdoor facilities used for orienteering and outdoor games such as football, netball, rounders etc. Neither our indoor nor outdoor curriculum coverage will be impacted by the development as the two existing school facilities will continue to be used for indoor lessons and the playground for outdoor lessons (see attached for pitch markings), this will also include playtimes and lunchtimes.

As the development moves forward and the existing buildings are demolished sport and PE curriculum timetabling will be in the new building and the field and playground will be accessed for outdoor use. Whilst the field area at the of the back of the building will be reduced during this time, usage will not be compromised due to the timetabling of only one class using the area for curriculum needs at any one time, playtimes and lunchtimes are staggered so again will not be compromised.

Community use

At the current time our indoor sports facilities are not used by any other organisations. Our wrap around care uses a building not affected by the build. A Food bank also operates from the same building, so will not be affected by the build.

There is currently no outdoor community use of the field.

If any further detail is required school can provide this.

Warm regards

Joanna Higginbotham
