

NEW TREES

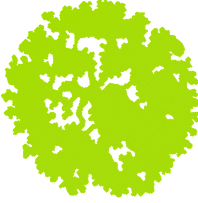

To be container grown specimen
Standard Tree (8- 10cm girth, 2.5 - 3m high)
Planting depth cca 40cm/ Hole diameter cca 45cm
Start by removing weeds and grass within a metre of your desired planting hole.
Dig a square hole as deep as your root mass and approximately 2x as wide.
To help the tree establish more effectively, sprinkle root grow in the hole.

The landscape design will incorporate a number of large and medium shrubs
as screening to the recycling storage and between East apartment and car parking

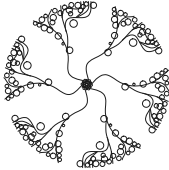

Lauren House
