

Memorandum

To Michael Pearson

From Rebecca Hesketh

Date 25 January 2024

Subject **138980/FO/2024**

Retention of statue, concrete base, and associated soft and hard landscaping measures.

We have reviewed the above application in relation to highways and our comments are as follows:

138980

The application is for retention of statue, concrete base, and associated soft and hard landscaping measures at Manchester City Football Club Ltd, Etihad Stadium, Ashton New Road, Manchester, M11 3FF.

The statue will be located on part of the open concourse and positioned outside the Etihad Stadium on forecourt.

HIGHWAYS RESPONSE

Plans indicate that the statue may affect the adjacent disabled parking bay. However, it is understood that the adjacent bay is no longer operational due to the club's Hostile Mitigation Strategy whereby a secure pedestrianised area was created around the stadium.

Whilst Highways are satisfied with the proposals, the applicant should ensure any statue overhang onto the adjacent carriageway does not conflict with high-sided vehicles associated with any servicing and construction activities which may utilise this route.
