John,

38 College Road Manchester M16 8FH - 136889/TCA/2023

The applicant has proposed to carry out the following pruning works:

Large Mature Sycamore Tree (T1), just wanting to prune one branch indicated by the red mark. This branch hangs over the Neighbouring Property. T1 is situated in the rear garden on the rear boundary line

Whilst I can confirm that this would not be considered good practice and nor is the previous pruning work that can be seen in the photograph, I would have no objection to the proposed work.

I would like to express my concerns regarding the pruning work that has/ is being carried out on this tree. The tree has been crown-lifted which is making the tree top heavy and in addition there are several branches being removed making the tree canopy unbalanced. I would suggest carrying out a

complete crown reduction and then shaping the tree as it begins to grow back to retain a rounded more manageable crown.

Kind regards

Rudi Farghaly
