Document Title: Phasing description – Viaduct and works to the station building

Phase 1

- temporary removal of the hard landscaping including tracks and ballast
- installation of the new waterproofing solution across the viaduct
- installation of new lead flashing at the juncture of the viaduct and Station Building
- Other associated works,

Phase 2

- reinstatement of the hard landscaping, ballast and tracks following completion of the waterproofing works.

For the avoidance of doubt planning permission is sought to be granted separately and severably for Phase 2 works.
