01 Bespoke Concrete Bench

F01

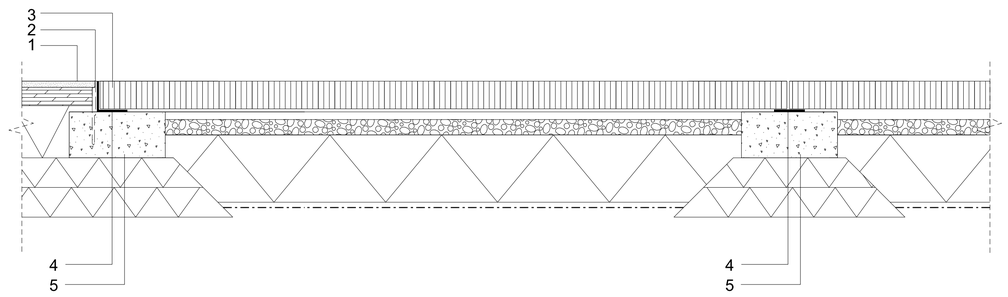

1. F01 - Bespoke Concrete Bench with steel supports. Typically 500mm deep x 475mm high.
2. Smooth finish achieved by surface grinding to top and vertical sides of bench.
3. Steel sections as bench supports. Reuse of steel beams subject to condition assessment by engineers. Assume 140mm high x 100mm deep. Dimensions to be confirmed.
4. LED lighting fixed to underside of steel section. Allow for power connection.
5. P01 - Paving Type 01. Asphalt surface.
6. E01 - Edge Type 01. Flush flexible metal edge.
7. Soft landscape. Set landscape build up 50mm below top of paving level. For landscape build ups refer to typical soft landscape details on SEW drawing '0453-SEW-ZZ-00-DR-L-000203'
8. Concrete haunch to engineers specification

Note: Concrete haunch to engineers specification.

02 Steel Walkway

Detail for P02

1. P01 - Paving Type 01. Asphalt surface.
2. E01 - Edge Type 01. Flush flexible metal edge.
3. P02 - Paving Type 02. Steel grating. Pressure locked, galvanised steel finish. 90mm depth. Make allowance for grating to be removed to access utilities below ground.
4. Steel angle to support steel grating, fixed onto concrete haunch.
5. Concrete haunch to engineers specification
6. Decorative gravel layer
7. Subbase layer
8. Geotextile membrane

Note: Concrete haunch to engineers specification.

General Notes

No dimensions to be scaled from this drawing. All dimensions to be checked on site by the contractor and such dimensions to be their responsibility. All work must comply with relevant British Standards and Building Regulations requirements. Drawing errors and omissions to be reported to the architects.
