Mankind – Male Victims of Domestic Abuse Day
02nd November 2022

GMI Oldham Rd and Bendix St Sites come together in support of 'Male Victims of Domestic Abuse Day 2022'

Wednesday 02nd November 2022 saw GMI support the MANKIND initiative – Male victims of Domestic Abuse Day 2022, with sites across the country standing down and taking part in a series of talks given by Professional Domestic Abuse Workers.

In the Northwest, our Oldham Rd site colleagues ventured onto our Bendix St site to listen to Louis Brooks from the Trafford Domestic Abuse Service give an informative and hard hitting speech, highlighting the ways in which men can be abused, how to spot signs of abuse and who can or may be the perpetrators. Louis also identified and promoted the services available to Men in Greater Manchester who are victims of Domestic Abuse.

Senior Project Manager, Chris Alessandra said "Domestic Abuse is can effect anyone on site and is a subject that I am really pleased GMI are bringing to the forefront of everyones attention, the talk that Louis gave was really impactful and I could tell all the lads in attendance were giving it their full attention"

Louis Brooks from Trafford Domestic Abuse Service thanked GMI for their support –

To have an organisation like GMI fully support this initiative is refreshing to see. The chance to come and speak, on site, to a group of men, some of whom may be suffering or may know someone who is being abused was really important. If we only help 1 individual then I and GMI have done our jobs. Thanks to everyone involved for making this happen.
