

Planning

Growth & Development

Delegated officer report for planning application

Application no. 138162/FH/2023

Date registered valid: 22 September 2023

Proposal: Erection of a single-storey building within rear garden to form ancillary living accommodation

Address: 3 Batchelor Close, Manchester, M21 7RH

Ward(s): Chorlton Park Ward

Applicant: Mr Affie Choudray

Agent (if any): Mr Barry Cullen

Case officer: Joshua Lee
Tel: 0161 219 2851
Email: joshua.lee@manchester.gov.uk

Recommendation: Approve

Date of recommendation: 31/10/2023

Application details

Type of application: Full Householder Application

Development type: Householder

Date of site visit: 04/10/2023

Standard consultations:

No consultations have been printed and sent.

Neighbour notifications

No neighbour notifications have been printed and sent.

Site notice

No site notice has been produced

Press advert

No press advert had been published

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

The proposal relates to a semi-detached dwellinghouse on Batchelor Close. The property features an existing two storey side extension and small rear extension and landscaping to the rear. It is of note the property does not face onto the street scene and is immediately adjacent a public footpath. The property does not feature vehicle parking but utilises non-allocated public parking on Wintermans Road.

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

Figure 1. Street scene (front elevation)

Figure 2. Rear elevations

Description of area

The property is located in a predominately residential part of the Chorlton Park ward of Manchester. The property backs onto a small park area.

Description: Enforcement Enquiry - Erection of a side extension

Decision: Closed 31.12.2010

Consultations & Notification Responses

Consultations

No consultees were consulted on this proposal.

Notifications

Local Residents

As per Appendix 1, Occupiers of properties surrounding the application site were notified of the proposal.

No comments, objections, or representations in respect of this application was received.

Policies & Principle

Summary of relevant policy

Planning law requires that applications for planning permission be determined in accordance with the development plan unless material considerations indicate otherwise.

The following policies are considered relevant in the consideration of this application.

- [The Manchester Core Strategy Development Plan Document 2012-2027](#) ("the Core Strategy") was adopted by the City Council on 11th July 2012 and is the key document in the Manchester Local Plan. It sets the out the long-term strategic policies for Manchester's future development and forms the framework that planning applications are assessed against. The following Core Strategy Policies are considered relevant to this proposal:
 - DM 1 - Development Management
 - SP 1 - Spatial Principles

- EN 1 - Design Principles and Strategic Character Areas

[Extant Unitary Development Plan \(UDP\)](#) - The Core Strategy replaced much of the UDP, but some UDP Development Control policies are extant (remain). The following extant policy are still considered relevant to this proposal.

- DC1 - Residential Extensions
- DC26 - Development and Noise
- [The National Planning Policy Framework \(The NPPF\)](#) - The National Planning Policy Framework (NPPF) was first published on 27 March 2012 with the latest version published 05 September 2023. This sets out the government's planning policies for England and how these are expected to be applied. The following sections are considered relevant to this proposal:
 - Section 4 – Decision-making
 - Section 12 – Achieving well-designed places

Principle of development

In general, the principle of allowing residents to extend their homes to provide enlarged or improved accommodation is generally acceptable if there is no overriding, undue impact upon either the character of the property or upon the residential and visual amenity of nearby residential occupiers.

In this instance the principle of the proposal is considered acceptable, and it is not believed that there are any factors of sufficient weight in amenity terms that would warrant refusal of the application.

On balance, the proposed development is deemed to accord with all relevant policy of the Manchester Core Strategy, Extant UDP and the NPPF as assessed in the following sections of this report.

The Manchester Core Strategy Development Plan (2012-2027)

The proposal has been assessed against the following policies of the Core Strategy:

DM 1 – Development Management

All new developments should follow the 'Development Principles' and accord with the design guidance set out in the Supplementary Planning Documents.

The proposal has been assessed against the following issues:

Appropriate siting, layout, scale, form, massing, materials, and detail

The applicant is seeking the erection of a single storey building within rear garden to form ancillary living accommodation.

The proposed outbuilding matches the architectural style and features of the existing building including window design.

The proposal uses brick and tile to match the materials of the existing property (as stated in the application form).

The proposal has been sited and designed to ensure that it is subservient to the original dwelling house.

Overall, it is considered that the proposed development has appropriate siting, layout, scale, form, massing, materials, and detail and is therefore in accordance with the development management principle.

Impact on the surrounding areas in terms of the design, scale, and appearance of the proposed development. Development should have regard to the character of the surrounding area.

The proposal is marginally visible from the street scene but has minimal effect on the character of the street.

Visual impacts in connection with the proposed development are not considered to have any significant impacts to the character of the area, and therefore the appearance is acceptable.

On balance, the proposal is considered comparable in terms of size and its position to others found in the immediate area, therefore it is felt that the proposal can be accommodated at the

application property and is considered that the proposal would not interfere with the existing characteristics of the area.

The proposal is considered acceptable and detailed as what is normally expected of such a structure. The design of the proposal would be in keeping with the existing and surrounding properties in the area and in terms of the proposed materials it is intended to use matching brick as specified in the application form.

Overall, it is considered that the proposed development has minimal impact on the surrounding areas in terms of the design, scale, and appearance and is therefore in accordance with the development management principle.

Effects on amenity, including privacy, light, noise, vibration, air quality, odours, litter, vermin, birds, road safety and traffic generation.

The proposal adds large bi-folding glass doors on the side elevation facing into the existing garden and 21 Vixen Close beyond. Given the gap to the shared boundary and distances to buildings the effect on privacy is minimal.

The proposal would add a massing to the boundary with No.1 Batchelor Close. The proposals size, being ground floor only, lack of large windows facing into No.1 and location, to the rear of the gardens, would minimise any overlooking or privacy concerns.

To ensure the privacy of local residents the small bathroom window facing into No1. Batchelor close will be required to be obscure glazed as conditioned.

The massing would cause less than significant harm No.1 Batchelor Close and its size, design and materials would be similar to what is normally expected of such a structure.

The proposal is expected to have a negligible effect on Air Quality.

The proposal in of itself has a negligible effect on local noise levels. It is recognised that demolition and/or construction works are often noisy and obtrusive to the local residential

amenity. Contractors are expected to follow best practice to minimise the temporary effect on residents referring to construction guidance on controlling emissions.

The proposal has no effect on road safety and traffic generation and is therefore in accordance with this development management principle.

On balance the proposal has minimal effect on privacy, local light, noise, vibration, air quality, odours, litter, vermin, and birds and is therefore in accordance this development management principle.

Accessibility: buildings and neighbourhoods fully accessible to disabled people, access to new development by sustainable transport modes.

The proposal does not alter the existing access to the premises or create an unnecessary barrier to access and egress.

The proposal is therefore in accordance with this development management principle.

Adequacy of internal accommodation and external amenity space.

The proposal adds internal accommodation to the property whilst having a minimal impact on the amenity of external space and is therefore in accordance with this development management principle.

Refuse storage and collection.

The proposal in of itself has a negligible effect on waste from the site, using existing refuse storage and collection on site. It is recognised that demolition and/or construction works often generate commercial waste. Contractors are expected to follow best practice of waste management.

The proposal is in accordance with this development management principle.

Vehicular access and car parking

The proposal has no effect on the existing vehicle access and car parking at the property and is therefore in accordance with this development management principle.

Effects relating to biodiversity, landscape, archaeological or built heritage

No ground contamination, groundwater contamination and/or ground gas relevant to the site or ground stability issues have been identified.

The proposal does not sit within a Conservation Area or near a designated heritage asset.

On balance the proposal has minimal effect on local biodiversity, landscape, archaeological or built heritage and is therefore in accordance with this development management principle.

Green Infrastructure including open space, both public and private

The dwelling benefits from a garden beyond the siting of the proposed development. As such proposal would have a negligible impact on green infrastructure, with an acceptable balance between the proposed development and retention of the existing green space achieved.

The proposal has negligible impact on green infrastructure and balances development with existing green space.

The proposal is therefore in accordance with this development management principle.

Flood risk and drainage.

The site does not sit in a flood risk area and therefore no flood statement or assessment was required.

The proposal has a negligible impact on drainage using the existing drainage on site.

The proposal is therefore in accordance with this development management principle.

SP 1 - Spatial Principles

This policy outlines the guiding spatial principles and core development principles of Manchester City Council.

Most notably the core development principles highlight development should 'make a positive contribution to neighbourhoods of choice'.

This proposal is considered to accord with the principles of this policy.

EN 1 – Design Principles and Strategic Character Areas

This policy outlines key design principles for development in Manchester most notably that all development in Manchester will be expected to follow the seven principles of urban design.

This proposal sits within the 'Southern Character Area'.

This proposal is considered to accord with the principles of this policy.

Extant Unitary Development Plan (UDP)

The Core Strategy replaced much of the UDP, but some UDP policies are extant (remain) and are relevant to this proposal.

DC1 - Residential Extensions

This policy outlines the key issues when considering proposed residential extensions.

This proposal is considered to accord with the principles of this policy.

DC26 - Development and Noise

This policy outlines the key issues to reduce the impact of noise on people living and working in, or visiting, the City.

This proposal is considered to accord with the principles of this policy.

The National Planning Policy Framework (NPPF)

The National Planning Policy Framework sets out the government's planning policies for England and how these are expected to be applied.

The NPPF has been adhered to and considered at all stages of the application.

Section 4 - Decision-making

Section 4 of the NPPF outlines how local planning authorities should approach decisions on proposed development in a positive and creative way.

Section 4 of the NPPF has been adhered to and considered at all stages of the proposal.

Section 12 - Achieving well-designed places

Section 12 of the NPPF outlines the need to achieve well-designed places.

Other Material Considerations

Other material considerations & policy may be relevant to the proposal as follows:

- [Guide to Development in Manchester Supplementary Planning Document and Planning Guidance \(April 2007\)](#)
- [Manchester Residential Quality Guide \(July 2016\) \(MRQG\)](#)
- [Manchester, Salford, and Trafford Strategic Flood Risk Assessment](#)
- [Manchester City Council Highways Developer Design Guidance – Sustainable Drainage Systems](#)
- [Manchester City Council Planning and Noise Technical Guidance \(2022\)](#)
- [Air Quality & Planning Technical Guidance \(2022\)](#)
- [Planning and Contaminated Land Technical Guidance \(2021\)](#)
- [Greater Manchester Joint Waste Development Plan Document \(GMJWDPD\)](#)

- [Waste Storage and Collection Guidance for New Developments \(2017\)](#)
- [Hot Food Takeaway Supplementary Planning Document \(2017\)](#)
- [Manchester City Council Houses in Multiple Occupation Guidance and Amenity Standards \(2020\)](#)
- [Manual for Streets \(2007\)](#)
- [National design guide](#) & [National Model Design Code](#) (2021)
- [Outdoor advertisements and signs: a guide for advertisers \(2007\)](#)

Relevant policy and guidance have been considered within policies of the Core Strategy and Extant UDP.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights

conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Conclusion

The proposal is considered acceptable in this location, in terms of design, scale and massing, without unduly detrimentally affecting the amenities of the occupiers of surrounding properties, or the character and appearance of the surrounding street scene, and there are no material considerations of sufficient weight to indicate otherwise. For the above reasons, the proposal is unlikely to have any detrimental impact and therefore accords with the relevant Core Strategy, Extant UDP, NPPF policies and other material considerations.

Recommendation: Approve

Article 35 Declaration

Officers have collaborated with the applicant in a positive and proactive manner. The proposal was assessed with regards to policies outlined in the National Planning Policy Framework, Unitary Development Plan Saved Policies, Local Development Framework Core Strategy Development Plan, and other material considerations. No significant problems have arisen during the consideration of this application.

Condition(s) to be attached to decision for approval

1. 3-year time limit

The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2. Specified plans

The development hereby approved shall be carried out in accordance with the following drawings and documents:

- | | | |
|----------------------------|-------------|----------------------|
| a. Drawing - Location Plan | 22 Sep 2023 | LOCATION PLAN |
| b. Drawing - Proposed | 22 Sep 2023 | PLANS AND ELEVATIONS |

Reason - To ensure that the development is carried out in accordance with the approved plans, pursuant to policies DM 1, SP 1 and EN 1 of the Core Strategy.

3. Specified materials

The materials to be used on the external surfaces hereby permitted shall match those as specified on the application form in type, size, colour, and texture.

Reason - To ensure the appearance of the building to be extended is not adversely affected by the materials to be used in the construction of the structure. Pursuant to policies DM 1, SP 1 and EN 1 of the Core Strategy.

4. Obscure glazing

Before first occupation the windows in the rear elevation, facing into No.1 Batchelor Close, shall be obscure glazed to a specification of no less than level 5 of the Pilkington Glass Scale or such other alternative equivalent and shall remain so in perpetuity.

Reason - To protect the amenity and living conditions of adjacent residential property from overlooking or perceived overlooking and in accordance with policies SP1 and DM1 of the Core Strategy.

5. Ancillary living accommodation

The proposed development is for use as ancillary living accommodation (Class C3a) to the existing dwellinghouse in perpetuity unless permission is specifically granted.

Reason - In the exceptional circumstances of a proliferation of HMOs and short term lets restricting housing choice and adversely affecting sustainability and in the interests of residential amenity, to safeguard the character of the area and to maintain the sustainability of the local community through the provision of accommodation that is suitable for people living as families pursuant to paragraph 7.4 of the Guide to Development in Manchester: Supplementary Planning Document and Planning Guidance, the National Planning Policy Framework and policies SP1 and DM1 of the Core Strategy for the City of Manchester.
