Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.

- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements
Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

Mining Information
The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Please read the Standing Advice from the Coal Authority in Appendix A.

The following security measures are recommended by Greater Manchester Police for this site:

- Temporary CCTV coverage of the stalls should be provided.
- Market stalls should be positioned so they create no visual barrier and sight lines stay clear.
- Lighting should be incorporated to sufficiently cover all aspects of the stalls and pathways.
- Any site boundaries should be installed to allow the flow control of pedestrians, as this creates a one-way in and one-way out. - Creating a safer environment as well as a gateway for any offender.
- The presence of site security personnel should be easily identifiable and located at main points of egress.
