Making Easy

## The Revolution laundrette: an innovative turnkey concept

### WHY CHOOSE A REVOLUTION LAUNDRETTE?

- Offer an additional service to your customers and attract new ones with an innovative concept
- Increase the time spent in your store
- Add value to every square metre of your car park
- Reduce your environmental impact with an eco-friendly concept
- Choose peace of mind. Our data collection and transmission means remote servicing and maintenance checks

### WHY WILL YOUR CUSTOMERS USE IT?

- Large volume machines, ideal for washing big items
- Quick, all-inclusive cycles at affordable prices
- Ideal location
- Easy parking
- Text alerts\*
- Different payment methods\*

## ECO-FRIENDLY

The Revolution Compact only needs 16 kW! It comes fitted with twilight lighting for reduced energy consumption. The integrated pumps supply the ideal amount of detergent, fabric softener and disinfectant softener to avoid any waste. We have also chosen to remove containers to reduce waste as much as possible. But the key revolution is our two solar panels! Fixed to the roof, they provide a direct energy supply to the whole structure. The ideal solution to reduce your carbon footprint, develop your commitment to the environment and reduce your energy bills!

## BETTER FOR THE USER

Our machines come with highly concentrated detergent\*! Certified by Ecolabel, just like the optional fabric softener. It contains no phosphates, colouring or preservatives. A disinfectant softener is also available. The text alerts\* give the user a 5-minute warning before the end of the wash cycle.

## 100% SELF-SERVICE

An open, automatic, outside laundrette available 24/7. Delivered assembled, it can be installed in just a few hours.

## EFFICIENT AND PROFESSIONAL

With its large volume machines (9 kg and 20 kg), this laundrette can wash and dry large quantities of laundry and big items like blankets, duvets, pillows, etc. in record time! One wash cycle takes about 30 minutes. Ideal for combining the weekly wash and shopping.

## ACCESSIBLE

All the machines and control buttons are at regulatory height, meeting the standards for smaller people and wheelchairs while looking great too.

Hypoallergenic  
eco-friendly  
detergent included\*

Text alerts when  
the wash is nearly  
finished\*
