Extent of works area for installation of proposed underground drainage for 2AS (Phase 1). Existing paving to be reinstated following completion of works.

Phase 1 main works area to 2AS and associated public realm

Contiguous pile wall to be installed as part of Phase 1 works to 2AS. Area to remain hoarded off (up to 6 months) following completion of main 2AS construction works, prior to commencement of Phase 2 works to 3AS.

Extent of works area for installation of proposed underground drainage for 2AS (Phase 1). Surfacing to service yard and tree nursery area to be reinstated following completion of works.

- Combined overall site boundary
- Phase 1 works area to 2AS and associated public realm
- Area to be hoarded to allow for construction of contiguous pile wall and associated earthworks. To remain hoarded until commencement of Phase 2 works to 3AS. Exact position and details of hoarding line to be confirmed by main works contractor.
- Temporary hoarding line to be installed (max 6 month period). Minimum 2.4 high timber hoarding (solid panel).
- Extent of works area for installation of proposed underground drainage associated with 2AS during Phase 1. Following completion of drainage works, areas to be reinstated to match existing finishes (as noted)
