--	-------------------------------------

Internal Stores (Residential and Commercial)

Please provide details of internal stores / segregation of waste and recycling.

Fitted kitchen units should incorporate segregated recycling and refuse bins. They should feature two compartments for mixed recycling and general waste of equal volume, each of which must be at least 60L.

- at least 7L for food waste
- a total minimum capacity of 127L

Storage Areas for Waste Containers (Residential and Commercial)

Please provide details of container stores, attaching plans if appropriate.

See the Plans
There is a rear yard which is easily accessible by the residence. The yard is secured by a gate. Waste and recycling bins are stored in a covered bin store with lockable gates. The bins will be collected by and maintained by staff from the private collection company.

Ensure all bins in the store are accessible	YES	☒
Ensure recycling facilities are as easy to access as general refuse	YES	☒

Please confirm details of waste store ventilation and hygiene / cleaning proposals

Ventilation - The rear yard is an open area and has ample ventilation

Hygiene - It is the responsibility of the landlord to ensure that the bin hygiene and cleaning is met by the private waste collection company.

Please provide details of who will be responsible for placing the bins at the collection point and returning them to the store / property promptly e.g., resident / management company

The private waste collection company

Please ensure that you have attached:
