Dear Sirs,

I am writing to you in order to apply for planning permission for building a garden house in our back garden.

We want to build it in purpose of offering a separate living space for our mother.
We hope she will have the opportunity to live in a comfortable and quite space, while visiting us.
We want the garden house to have all the facilities for a commodious living, like: 1 bedroom, 1 bathroom, kitchen and little living room.

We hope the planning permission will be successfully.

Thank you for your help!
