Building Regulations 2010

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

You can apply online at the following address:

http://www.manchester.gov.uk/info/100011/roads_parking_and_transport/1988/naming_and_numbering_of_houses_buildings_streets_and_roads/2

Detail should be sought from the applicant in relation to any proposed construction or fitout arrangements, where there is an impact on the highway. The applicant should be advised that any requirements for licensing, hoarding / scaffolding, skips and any associated temporary traffic management arrangements will need discussion and agreement with the council's Highway Applications and Network Resilience teams via Contact Manchester (Tel: 0161 234 5004 / Email: highwaylicences@manchester.gov.uk).

As is common within this location, the applicant may wish to consider installing white 'H' markings across the driveway to dissuade errant parking across the driveway. This could be completed as part of a S278 Agreement which will require agreement with MCC's

Highways Applications and Network Resilience teams and can be applied for online at https://www.manchester.gov.uk/directory_record/451887/permission_to_work_on_the_highways_-_section_278_agreements/category/355/highways_and_pavements.

Ongoing discussions are required by the applicant with United Utilities, as the issues will have to be resolved before Building Regulations would be able to grant consent. Any variations to the scheme that are required as a result of those discussions, may require the submission of a new application or submission of a variation of the specified plans condition.
