

Malmaison Manchester (New) as of January 2022

The information provided is for guidance purposes and at this stage is indicatively only

All supplier can make deliveries to a specific delivery point as necessary, this can be mandated from the Procurement Team

Some supplier contracts may have ended by the time Manchester opens, however specific instructions can be made to any new suppliers if necessary

Delivery vehicle sizes can change depending on delivery sizes and specific requirement/routes on any given day

Many suppliers are still operating on reduced volumes, thus less vehicles, reduced fleet size, lesser delivery routes but on bigger vehicles etc whereas we'd expect this to begin to change in the coming months so the current position could change

Delivery frequencies are indicative only and may vary subject to demand & supply chain challenges

Malmaison

		<i>Indicative only as of Jan 22 - Based on demand</i>	<i>May be subject to change as per notes</i>			
Supplier	Supply	Frequency	Vehicle	Size (Do vary slightly if vehicle type is same)	Weight	Comments

The typical vehicles we will deploy to this site are what we call 'Trade Waste Trucks' – a different version of these would service each waste stream (General Waste, Dry Mixed Recycling, Glass & Food). Their dimensions are as follows –

If at any point the site request a skip, bulker or compactor service through Biffa, these trucks sizes are below –

Skip/Portable Compaction Collection Vehicle

Gross Vehicle Weight	17.00 & 18.00 tonnes
Vehicle Length	7.00m 23'0"
Pick up Length Required	12.19m 40'0"
Travel Height	3.68m 12'1"
Operating Height	4.34m 14'3"
Vehicle Width	2.50m 8'2"
Turning Circle (kerb to kerb)	15.54m 51'0"

Bulk Carrier/Compaction Container Collection Vehicle

Gross Vehicle Weight	32.00 tonnes
Vehicle Length	9.14m 30'0"
Pick up Length Required	15.54m 51'0"
Travel Height	5.18m 17'0" max height using 9m container
Operating Height	6.70m 22'0" max height using 9m container
Vehicle Width	2.50m 8'2"
Turning Circle (kerb to kerb)	23.01m 75'6"

Trade Waste Collection Vehicle

Gross Vehicle Weight	26.00 tonnes
Vehicle Length	10.00m 32'10"
Pick up Length Required	11.50m 37'9"
Travel Height	3.90m 12'10"
Operating Height	4.00m 13'1"
Vehicle Width	2.50m 8'3"
Turning Circle (kerb to kerb)	17.50m 57'5"
