Subject: Main Chiller Plant AO Arena Manchester Roof.

Hi Michelle

The Main Chiller in the AO Arena operate two hours before public ingress prior to an Event and are shut down immediately after an event.

In Normal Circumstance the operational times that Chillers will operate are from 3pm until 11-00pm on an event day.

In all cases the Chillers are shutdown by our onsite Engineering Team at 11-00pm.

In normal occupation of the Arena on Non Event Days the chillers will be controlled by the Arena Building Management System with the Chillers operating between 8-00am until 6-00pm when the external temperature is above 15 C. At all other times the chillers will be non-operational.

Stephen Tyldsley
