Growth & Development

Delegated officer report for planning application

Application no. 137072/FO/2023

Date registered valid: 13 June 2023

Proposal: Erection of a temporary construction compound and logistical hub (Sui Generis) to facilitate the construction of Mayfield Phase 1 (approved under application ref no 132255/JO/2021 and 125248/FO/2019 as amended) and neighbouring infrastructure developments until July 2030.

Address: Mayfield Site Compound, Hoyle Street, Manchester, M12 6HG

Ward(s): Piccadilly Ward

Applicant: Mayfield Development Partnership LP

Agent (if any): Mr Michael Percival Deloitte LLP

Case officer: Angela Leckie
Tel: 0161 234 4651
Email: angela.leckie@manchester.gov.uk

Recommendation: Temporary Approval

Date of recommendation: 13/12/23

Application details

Type of application: Full Application Consent

Development type: Major Other

Date of site visit: 6 July 2023

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

The application site is approximately 1.46 ha and is located entirely within the Mayfield SRF area. Mayfield lies to the south of Fairfield Street in Manchester city centre, in close proximity to Piccadilly mainline railway station. The Mayfield area is bounded by Fairfield Street to the north; Temperance Street to the north-east; the Mancunian Way Ring Road (A653) to the south; and London Road (A6) to the west.

The application site is not environmentally sensitive; it is previously developed 'brownfield land'. The Site is not located within a designated Conservation Area, nor does it contain any Listed Buildings. The site is close to the recently completed Mayfield Park and the River Medlock

The wider SRF area extends to 30 acres overall, the SRF endorsed in 2010, set out a vision to create a commercially led mixed-use neighbourhood within a high quality environment, including a new city centre park. It sought to enhance connectivity and deliver regeneration benefits. It was updated in 2014 to strengthen connections to Piccadilly station and create a stronger gateway to the City Centre, building on the Northern Hub rail expansion and act as a catalyst for the regeneration anticipated as a result of HS2.

The phased development of Mayfield should deliver a commercially led mixed-use area comprising a new park, 154,800 sq m of office space, 1500 homes, a hotel and retail and leisure facilities. This should create up to 10,000 office, retail, leisure and construction jobs and regeneration benefits that would drive economic growth. Public spaces and routes would improve permeability and movement. The SRF has been broken down into developable sub-areas and this application relates to a plot within an area that lies between Mayfield Park, the Mancunian Way and Baring Street where office uses are envisaged.

Meanwhile uses within the wider SRF site over the past 6 years have commenced the process of regeneration and have introduced economic and social activity.

Permission for the first phase of development within the Mayfield SRF Area was approved in February 2020 under planning permission references 124972/FO/2019 (as amended) and 125248/FO/2019 (as amended).

Description of development

Planning permission was granted in 2020 for a temporary period of 10 years for the erection of a temporary construction compound and logistical hub (Sui Generis) to facilitate the construction of Mayfield Phase 1 (124972/FO/2019 and 125248/FO/2019) as detailed above and neighbouring infrastructure developments for a ten year period, including associated demolition of on-site structures, erection of site cabins, physical landscaping and highway works, and car and cycle parking provision for construction workers. It was subsequently amended by application ref no 135704/NMC/2022 to a phased implementation. 3 phases of development would comprise the following:

- Phase 1 preparation of part of the site for material storage: resurfacing, provision of access egress into this part of the site and area for material laydown and storage. It would also be likely to involve some form of drainage works for interception of pollutants generated by any vehicle movements. (Before November 2024);
- Phase 2 would be commissioned if works for the construction of platform 15 and 16 are progressed (anticipated 25/26); and
- Phase 3 would be implemented when Plots J,K and L within the Mayfield SRF progress. No demolition works would take place until phase 2 is implemented.

The demolition works have been granted prior approval under application ref no 136166/DEM/2023. The demolition would only take the existing buildings down to ground level and not below ground.

The trees on the development site, screen it from the Mancunian Way, will be retained.

The 2020 consent was granted a 3 year implementation period which expired in July 2023. As that consent phased or otherwise was not implemented this application represents a resubmission of the original consent (with the phasing amendment) to allow for an additional period of implementation. The 6 year period for the temporary consent is required due to the potential lead-in and operational period for the Network Rail construction works.

The proposed construction compound would, should all 3 phases be implemented be located on either side of Hoyle Street, which is towards the eastern end of the SRF area.

Developments that may also use the compound include the Transport and Works Act Order ('TWAO') relating to the delivery of Platform 15 and 16 at Piccadilly and the remodelling of Oxford Road Station. It is intended to act as a logistics hub and compound for site construction workers and to assist with the delivery of all three projects, including fabrication and concrete batching as an alternative to the use of Mayfield Depot. The delivery of an alternative compound location also allows the Mayfield Depot to be redeveloped, subject to occupier demand, as per the Strategic Regeneration Framework.

There is no current start date from the delivery of Platform 15 and 16 but these areas will be required to be available for use as a compound whilst enabling ongoing of regeneration of Mayfield and specifically areas of Network Rail land which they might otherwise want to use for their compound.

Vehicular access to the site is to be offered from the Mancunian Way for smaller vehicles, with larger vehicles taking a route via Fairfield Street and Hoyle Street. To ensure the routes are free of traffic and parked cars, a TRO will be applied for to agree new road markings to restrict on street parking. To create a comprehensive and unobstructed site compound, it is proposed that Chapelfield Road and within the site boundary are stopped up.

Consultations & Notification Responses

Publicity – The application was advertised as a public interest application and site notices were displayed adjacent to the site. Occupiers of nearby properties were notified about the application. No representations have been received.

Head of Environmental Protection – Has no objections subject to conditions relating to hours of operation, construction management, mitigation of any on site contamination and external lighting being attached to any consent granted.

Highway Services – Have no objections but have recommended that a construction management plan condition is attached to any consent granted.

They also note that it will be necessary to stop up Rachel Street, River Street and part of Chapelfield Road and this will need to be facilitated through S247 agreement via the MCC Statutory Approvals Team and at the developer's expense. In addition, parking restrictions will need to be promoted through traffic regulation order via S278 agreement with this team. This can be added as an informative to any consent granted.

Flood Risk Management – No comments received by on the previous application requested a SuDs condition be attached to any approval to ensure sustainable drainage.

Network Rail – Have not raised an objection but state that no works are to commence until agreed with Network Rail and that early engagement with Network Rail is strongly recommended. They have provided detailed comments in relation to various aspects of working safely next to rail infrastructure and in relation to the protection of their assets which have been shared with the applicant.

HS2 – Have not raised any objections but have requested that an informative be attached to any consent granted which signposts the applicant to information relating to interfaces, overlapping works programmes and close proximity to the HS2 safeguarded area.

Greater Manchester Police (Design for Security) – Have made comments in relation to site security and requested a condition to agree the final design of the perimeter fence in consideration of this.

GMAAS - Consider that no archaeological mitigation is required for these works and that archaeological investigations in this part of the Mayfield regeneration area can be reserved for the later stage of new development, which is likely involve much more substantial ground works and associated impact on archaeological remains.

Environment Agency – Have not raised any objections and are happy with the scope of the submitted site remediation strategy. They have recommended that the comments of the Flood Risk Team are sought. Given the location of the site they have requested that a number of informatives are included with any consent granted.

GMEU – Have no objections subject to appropriate mitigation for loss of habitat being delivered as part of the site reinstatement and a condition being attached in relation to mitigation of invasive species. They have also recommended a number of informatives in relation to breeding birds and bats.

Issues

National Policy

The National Planning Policy Framework sets out the Government's planning policies for England and how these are expected to apply. It aims to promote sustainable development. The Government states that sustainable development has an economic role, a social role and an environmental role (paragraphs 7 & 8). Paragraphs 10, 11, 12, 13 and 14 of the NPPF outline a

"presumption in favour of sustainable development". This means approving development, without delay, where it accords with the development plan.

Paragraphs 11 and 12 state that: "For decision- taking this means: approving development proposals that accord with an up-to date development plan without delay" and "where a planning application conflicts with an up-to date development plan (including any neighbourhood plans that form part of the development plan), permission should not usually be granted.

Local planning authorities may take decisions that depart from an up-to-date development plan, but only if material considerations in a particular case indicate that the plan should not be followed". The proposed development is considered to be consistent with sections 2, 6, 7, 9, 11, 12, 14 and 15 of the NPPF for the reasons outlined below.

Section 2 Ensuring the Vitality of Town Centres– Supporting the delivery of Mayfield's regeneration would create a sustainable neighbourhood of choice within the City Centre.

Section 6 Building a strong and competitive economy - The Proposed Construction Compound will assist with the delivery of Phase 1 of Mayfield; Platforms 15 and 16 at Piccadilly Station and Oxford Road Station remodelling. The delivery of an alternative compound location also allows the Mayfield Depot to be redeveloped, subject to occupier demand, as per the Strategic Regeneration Framework. All three projects will enable significant economic growth within Manchester and are reliant on an alternative compound to the Mayfield Depot being secured.

NPPF Section 7 Ensuring the Vitality of Town Centres - The Regional Centre is the focus for economic and commercial development, leisure and cultural activity, and city living. Support for this new neighbourhood would attract and retain a diverse labour market. It would support GM's growth objectives by delivering jobs for a growing economy and population, in a major centre that is well-connected.

Section 9 Promoting Sustainable Transport – Facilitating the delivery of Platforms 15 and 16 and the Oxford Road Improvements will support the promotion of more sustainable transport use within the Regional Centre.

Sections 11 (Making Effective Use of Land) and 12 (Achieving Well Designed Places – The construction pathways that the compound would facilitate would allow the Mayfield Depot building to be reused in the future use as part of the regeneration of the Mayfield Regeneration Area, rather than demolished as proposed in the TWAO which would not only be an effective use of land it would retain the elements to deliver a 'sense of place' as part of the SRF delivery.

Section 14 (Meeting the challenge of climate change, flooding and coastal change) and Section 15 (Conserving and Enhancing the Natural Environment– Impacts on the environment would be managed through appropriate management of the drainage at the site during the operation of the development, site remediation and management of the operations of the compound in terms of potential impacts.

Local Policies

The following adopted policies are considered to be of relevance to this application for the reasons set out below and discussed in more detail below.

Policy SP1 (Spatial Principles),- which guides the strategic development of Manchester identifying the Regional Centre as the focus for economic and commercial development, leisure and cultural activity, alongside high quality city living. It states that all development within the City Centre

regeneration area should have regard to the character and issues as identified in the Manchester City Centre Strategic Plan and outlines the following core development principles:

Development should:-

Make a positive contribution to neighbourhoods of choice including:-

- creating well designed places that enhance or create character;
- making a positive contribution to the health, safety and wellbeing of residents;
- considering the needs of all members of the community regardless of age, gender, disability, sexuality, religion, culture, ethnicity or income;
- protect and enhance the built and natural environment;
- minimise emissions, ensure efficient use of natural resources and reuse previously developed land wherever possible;
- Improve access to jobs, services, education and open space by being located to reduce the need to travel; and
- provide good access to sustainable transport provision.

Impacts in relation to this policy are discussed below.

Policy DM 1- Development Management – sets out the requirements for developments in terms of BREEAM and outlines a range of general issues that all development should have regard to. Of these the following issues are or relevance to this proposal:

- Impact on the surrounding areas in terms of the design, scale and appearance of the proposed development.
- Development should have regard to the character of the surrounding area.
- Effects on amenity, including privacy, light, noise, vibration, air quality and road safety and traffic generation. This could also include proposals which would be sensitive to existing environmental conditions, such as noise.
- Community safety and crime prevention.
- Vehicular access and car parking.

Impacts in relation to this policy are discussed below

Policy EN 15 - Biodiversity and Geological Conservation - seeks to maintain or enhance sites of biodiversity and geological value throughout the City. Impacts in relation to this policy are discussed below.

Policy EN 17 Water Quality – Seeks to reduce surface water run off and avoid adverse impacts on water quality. Impacts in relation to this policy are discussed below

Policy EN 18 Contaminated Land and Ground Stability – Seeks to give priority for the remediation of contaminated land and to secure appropriate mitigation. Impacts in relation to this policy are discussed below

Saved UDP Policies

DC26.1 Development and Noise - which details how the development control process will be used to reduce the impact of noise on people living and working in the City and states that this will include consideration of the impact that development proposals which are likely to be generators of noise will have on amenity.

DC26.5 Development and Noise - which states that the Council will control noise levels by requiring where necessary, high levels of noise insulation in new development as well as noise barriers where this is appropriate.

Impacts in relation to these policies are discussed below.

Places for Everyone

The Places for Everyone Plan is a Joint Development Plan Document, which provides a strategic plan and policies, for nine of the 10 boroughs which make up Greater Manchester. Once the Places for Everyone Plan is adopted it will form part of Manchester's development plan.

To date, five consultations have taken place in relation on the Plan. The Examination of Plan, following its submission in February 2022, began in November 2022. Following the completion of the Examination of the Plan, main modifications have now been proposed which will now become the subject of further public consultation.

The City Council's Executive agreed the Main Modification on 4 October 2023 and endorsed an 8-week period of public consultation on the Main Modifications commencing no earlier than 9 October 2023.

Any representations will be forwarded to the Examination team managing the Plan. The Inspectors will consider all representations on the proposed Modifications before finalising the examination report.

Given the stage the Plan has reached, and level of public consultation and scrutiny it has received, the Plan and its policies is now a material planning consideration in the determination of planning applications. The Plan and its policies must therefore be given significant weight in the planning balance.

Policy JP-P 1 (Sustainable Places) aims to become one of the most liveable city regions in the world, consisting of a series of beautiful, healthy and varied places, each having the following key attributes that all development, wherever appropriate, should be distinctive, with a clear identity, visually stimulating, socially inclusive, resilient, adaptable, durable, resource efficient, safe, supported by critical infrastructure, functional and convenient, incorporating accessibility, legible easy to move around, well connected, comfortable and inviting, incorporating high quality and well managed green infrastructure and public realm, well served by local shops, services and amenities.

Policy JP-Strat1: Core Growth Area -aims protect and enhance the economic role of the Core Growth Area, with sustainable development supporting major growth in the number of jobs provided across the area providing opportunities to create jobs for local communities, complementary to, but not at the expense of, its economic function.

Policy JP-J1: Supporting Long-Term Economic Growth – promotes a thriving, inclusive and productive economy will be sought in all boroughs.

Impacts in relation to these policies are discussed below.

Principle of Compound for Temporary 6 Year Period – It is noted that the proposed compound continues to be of strategic importance to the city, as it is proposed as an alternative compound for major infrastructure projects that originally intended to use the site of the Mayfield Depot, following demolition, for the same purpose. This is set out in the Transport and Works Act Order proposed by Network Rail for the delivery of Platform 15 and 16. The most recent Mayfield SRF,

to be delivered by the Mayfield Partnership, seeks to instead re-use the Depot and bring forward a significant amount of employment-led uses in this space subject to occupier demand. This wider support for the delivery of this element of the SRF would support the wider creation of economic and social benefits within the Regional Centre.

By relocating the compound to Hoyle Street, rather than the Depot, this would allow the redevelopment of this key part of the Mayfield Strategic Regeneration Framework to come forward at any time.

It is noted that the previous consent granted planning approval for a construction compound (126672/FO/2020) that would expire in 2030 if the consent had been implemented in 2023 (in line with condition 1) and no additional period to the original 10 years is sought.

Visual amenity - The construction phase of any building of any scale will involve processes that are visually unsightly and are likely, in visual effect terms to be largely adverse in nature, however these effects are temporary in their nature. Mitigating the effects of the construction phase will involve high quality hoardings that will be used to limit unsightly visual impacts at street level. On site trees will also be retained to offer further visual cover into the site. These elements would secure and protect the site and prevent views of the construction compound. A condition is recommended within this report ensuring that the site must be fully remediated via hard and soft landscaping following the expiry of the 6 year temporary permission, or following the cease of the operation of the site (whichever comes first) unless development of site is approved at that time.

It is also noted that the use of an alternative location to the Depot for the construction compound will have design benefits which are detailed above under Sections 11 and 12 of the NPPF.

Impacts on Amenity and Management of Wider Environmental Impacts – It is noted that currently the area is one which is principally characterised by light industrial uses and the nearest residential uses are separated from the site by the Mancunian Way. No objections have been raised by Environmental Protection Officers in relation to noise, air quality and construction management subject to conditions being attached to control hours of operation and the aspects of construction management that are relevant planning considerations including in terms of dust generation.

No objections have been raised by highways in relation to traffic impacts again subject to a condition.

The submitted site remediation strategy is acceptable to both Environmental Health and the Environment Agency and its implementation and monitoring would be a condition of any consent granted which would provide the necessary protection for the nearby River Medlock.

There would be no unacceptable impacts on any valued habits and enhancement of and mitigation for the loss of the low value habitat would be secured via a condition unless there is an approval in place at the time that the use of the site compound ceases for the sites redevelopment as part of the delivery of the wider Mayfield SRF which itself would need to secure those enhancements and mitigation. The trees on the development site, screening it from the Mancunian Way, will be retained for the benefit of visual screening in addition to noise and dust control.

An Archaeological Desktop Survey has been produced for this part of the site that sets out there is little in terms of below ground remains that will exist in this location. As the development would only take the existing buildings down to ground level and not below ground, the risk to below ground archaeological remains are considered to be low. Therefore, at this stage no further information is required as part of these proposals in regard to potential archaeological findings

underground. It is anticipated that there may be some partial below ground remains under the proposed development site, which comprises back to back workers housing. A full archaeological record for the site will be prepared once permanent redevelopment comes forward.

Crime and Disorder – The activity from the use of the compound would increase activity and natural surveillance in the area in advance of the wider Mayfield SRF Regeneration coming forward. A condition attached to any consent granted will ensure that the fence around the compound provides adequate security.

Conclusion

The compound is of strategic importance to the city, as it is proposed as an alternative compound for major infrastructure projects that originally intended to use the site of the Mayfield Depot, following demolition, for the same purpose. This would allow the Depot to come forward as part of the Mayfield regeneration proposals. Taking into account the above and all other material planning considerations, the proposal is considered to be acceptable subject to the recommended conditions within this report.

It would be in line with Core Strategy Policies DM1, SP1, EN15, EN17 and EN18, saved UDP Policy DC26 and Places for Everyone Policies JP-P1, JP-Strat 1 and JP-J1.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Officers have worked with the applicant / agent in a positive and proactive manner to guide the application through all stages of the planning process and resolve any issues that arose in dealing with the planning application. Appropriate conditions were attached to the decision to ensure an acceptable development with the agreement of the applicant / agent.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The permission hereby granted is for a limited period only, expiring on 03 July 2030.

The use hereby permitted shall be discontinued no later than the 03 July 2030 and the buildings and works comprising the development are required to be removed no later than one month from the use ceasing.

Reason - The use hereby granted is for a temporary period only to help meet the construction requirements of major developments projects in the local vicinity, which are part of a long term strategy for significant investment and regeneration in Mayfield and Piccadilly, pursuant to policies SP1 and DM1 of the Manchester Core Strategy.

3) The development hereby approved shall be carried out in accordance with the following drawings and documents:

(a) Existing Site Plan drawing ref. 20352 SK21, Revision A);

(b) Dwgs Proposed Site Plan - Option 1 (drawing ref. 20352 SK32, Revision B), Proposed Site Plan - Option 2 (drawing ref. 20352_SK33, Revision D), and Hoardings Details - Typical Section/Detail (drawing ref. 20352 SK500, Revision -) all stamped as received 24-05-23;

(c) Buro Happold Technical Note, Mayfield Site Compound, 23 November 2023 00 Updated ecological surveys stamped as received 30-11-23;

(d) Arboricultural Survey (July 2017) by thomson ecology stamped as received 24-05-23;

(e) Transport Statement (2 April 2020) by Civic Engineers stamped as received 24-05-23;

(f) Geoenvironmental and Geotechnical Desk Study Report, (10 August 2017) by Buro Happold stamped as received 24-05-23;

(g) Archaeological Desk-based Assessment (Report No: SA/2019/36) by University of Salford, stamped as received 24-05-23;

(h) Phasing as shown in Dwg 20352 SK32 and as detailed in Deloitte's e-mail dated 04-01-23

DRAINAGE STRATEGY

Reason - To ensure that the development is carried out in accordance with the approved plans, pursuant policies EN1, EN15, EN19, DM1 and SP1, of the Manchester Core Strategy and saved policy DC26 of the Unitary Development Plan for the City of Manchester.

4) Notwithstanding the approved plans and documents as specified in condition 3, prior to the commencement of each phase as shown in Dwg 20352 SK32 details to include;

- *Display of an emergency contact number;
- *Details of Wheel Washing;
- *Compound locations where relevant;
- *Location, removal and recycling of waste;
- *Routing strategy and swept path analysis;
- *Communication strategy with residents and businesses which shall include details of how there will be engagement, consult and notify residents during the works; and
- *Parking of construction vehicles and staff;

Manchester City Council encourages all contractors to be 'considerate contractors' when working in the city by being aware of the needs of neighbours and the environment. Membership of the Considerate Constructors Scheme is highly recommended.

The development shall be carried out in accordance with the approved construction management plan.

Reason - To safeguard the amenities of nearby residents, highway safety and air quality, pursuant to policies SP1, EN16, EN19 and DM1 of the Manchester Core Strategy (July 2012).

5) Prior to the first operation of the development a Noise Management Plan (NMP) shall be submitted and approved in writing by the City Council as local planning authority. The NMP will include an assessment of noise from all activities associated with the temporary site compound, storage area and deliveries.

The development proposed shall include measures such as acoustic enclosing certain plant and restrictions on operating hours and audible alarm systems. Where applicable, the noise assessment will take account of multiple noise sources operating simultaneously and report the cumulative impact.

The noise impact of the development should be controlled to those criteria as set out in the Council's Planning & Noise Technical Guidance.

The development shall then be implemented in full and operated in accordance with the approved NMP. For the avoidance of doubt the strategy may be phased, if necessary.

Reason - In the interests of residential amenity in order to reduce noise and general disturbance in accordance with Policy DM1 and DC26 and the Unitary Development Plan for the City of Manchester.

6) Notwithstanding the approved plans and documents as specified in condition 2, prior to the first operation of the development, a scheme for the storage and disposal of refuse shall be submitted to and approved in writing by the City Council as local planning authority. The details of the approved scheme shall be implemented as part of the development and shall remain in situ whilst the use or development is in operation.

For the avoidance of doubt, new developments shall have refuse storage space for segregated waste collection and recycling. Internal and external storage areas are required. For the avoidance of doubt the scheme may be phased, if necessary.

Reason - In order to ensure that adequate provision is made within the development for the collection of waste in accordance with policies DM1 and EN19 of the City of Manchester Core Strategy.

7) Before development commences details of the proposed opening hours shall be submitted to and approved in writing by the City Council as local planning authority. The approved hours shall be implemented as part of the development.

Reason - In interests of residential amenity in order to reduce noise and general disturbance in accordance with saved policy DC26 of the Unitary Development Plan for the City of Manchester and policies SP1 and DM1 of the Core Strategy.

8) Notwithstanding the approved plans and documents as specified in condition 3, prior to the commencement of each phase as shown in Dwg 20352 SK32 a scheme for surface water drainage works shall be submitted to and approved in writing by the Local Planning Authority in accordance with Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacements national standards. The scheme shall seek to and include:

- Evidence that the drainage system has been designed (unless an area is designated to hold and/or convey water as part of the design) so that flooding does not occur during a 1 in 100 year rainfall event with allowance for climate change in vulnerable parts of the site, e.g. site cabins. Hydraulic calculation of the proposed drainage system;
- Assessment of overland flow routes for extreme events that is diverted away from buildings (including basements). Overland flow routes need to be designed to convey the flood water in a safe manner in the event of a blockage or exceedance of the proposed drainage system capacity including inlet structures. A layout with overland flow routes needs to be presented with appreciation of these overland flow routes with regards to the site and adjacent properties off site;
- Where surface water is connected to Main River, any works within or adjacent to the river that would affect it would require consent from Environment Agency. An email of acceptance of proposed flows and/or new connection will suffice.
- As the compound may cause unusual pollution risk to surface water (large car park areas (>50 parking spaces) and construction vehicles), evidence of pollution control measures (preferably through SuDS) is required.

The scheme may be phased if necessary, and shall be fully implemented in accordance with the approved details within an agreed timescale.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. This condition is imposed in light of national policies within the NPPF and NPPG and local policies EN08 and EN14.

9) If any external lighting at the development hereby approved, when illuminated, causes glare or light spillage which in the opinion of the Council as local planning authority causes detriment to adjoining and nearby residential properties, within 14 days of a written request, a scheme for the elimination of such glare or light spillage shall be submitted to the Council as local planning authority and once approved shall thereafter be retained in accordance with details which have received prior written approval of the City Council as Local Planning Authority.

Reason - In order to minimise the impact of the illumination of the lights on the occupiers of nearby residential accommodation, pursuant to policies SP1 and DM1 of the Core Strategy

10) Following the expiry of this temporary planning permission (on 03 July 2030) or following the permanent cease of the operation of the temporary development (should the use no longer be required before this 10 year period), a scheme for the full remediation of the construction compound site/land through appropriate hard and soft landscaping which will ensure that the restoration of the site to mitigate for the loss of existing habitat shall be submitted to and approved in writing by the City Council. Unless planning permission for the redevelopment of the site is in place at that time in which case a scheme for temporary remediation should be submitted to and approved in writing by the City Council.

The scheme shall be submitted to the City Council as local planning authority within two calendar months following the expiry of the temporary permission, or following the permanent cease of the use of the land related to this temporary permission.

The subsequently approved scheme shall be implemented in full thereafter, in a timescale to be agreed.

For the avoidance of doubt, should other developments be constructed or proposed on any part of this site/land relating to this temporary planning permission, the remediation strategy shall be amended appropriately in scope to reflect such developments.

Reason: In order to ensure the land/site is appropriately remediated following the cease of the temporary use, in the interests of visual amenity, pursuant to EN1, SP1, DM1, EN8, EN9 and EN15 of the City of Manchester Core Strategy.

11) The development shall be implemented in accordance with the site remediation set out within the Geoenvironmental and Geotechnical Desk Study Report, (10 August 2017) by Buro Happold stamped as received 24-05-23

In the event that ground contamination, groundwater contamination and/or ground gas, not previously identified, are found to be present on the site at any time before the development is occupied, then development shall cease and/or the development shall not be occupied until, a report outlining what measures, if any, are required to remediate the land (the Revised Remediation Strategy) is submitted to and approved in writing by the City Council as local planning authority and the development shall be carried out in accordance with the Revised Remediation Strategy, which shall take precedence over any Remediation Strategy or earlier Revised Remediation Strategy.

Reason - To ensure that the presence of or the potential for any contaminated land and/or groundwater is detected and appropriate remedial action is taken in the interests of public safety, pursuant to policies DM1 and EN18 of the Core Strategy.

12) Prior to any earthworks or site clearance a survey for invasive plant species including japanese knotweed and himalayan balsam will occur and the finding supplied to and agreed in writing to the LPA. If any invasive species are present a method statement detailing avoidance, control and eradication measures should be submitted to and agreed in writing by the City Council as Local Planning Authority.

Reason

The above condition is necessary to prevent the spread of Japanese knotweed which is an invasive species. Without it, avoidable damage could be caused to the nature conservation value of the site contrary to national planning policy as set out in the National Planning Policy Framework paragraph 170 and pursuant to Core Strategy Policy EN15.

13) Prior to implementation details of the perimeter fence design to include adequate standards of security for the site shall be submitted to and approved in writing by the City Council as Local Planning Authority.

Reason - To reduce the risk of crime pursuant to policies SP1 and DM1 of the Core Strategy and to reflect the guidance contained in the National Planning Policy Framework

Informatives

1) Construction/demolition works shall be confined to the following hours unless otherwise agreed in writing by the City Council as local planning authority:

Monday - Friday: 7.30am - 6pm

Saturday: 8.30am - 2pm

Sunday / Bank holidays: No work

Workforce may arrive on site 30 minutes prior but no working outside these times, unless changed by prior agreement. Noise to be kept to a minimum in the first hour.

Reason - To safeguard the amenities of the occupiers of nearby residential accommodation during the construction phase.

2) As indicated in the Transport Statement, it will be necessary to stop up Rachel Street, River Street and part of Chapelfield Road and this will need to be facilitated through S247 agreement via the MCC Statutory Approvals Team and at the developer's expense. In addition, parking restrictions will need to be promoted through traffic regulation order via S278 agreement with this team.

3) Whilst the buildings to be demolished have been assessed as negligible risk for bats, the applicant is reminded that under the 2019 Regulations it is an offence to disturb, harm or kill bats. If a bat is found during demolition all work should cease immediately and a suitably licensed bat worker employed to assess how best to safeguard the bat(s).

4) No works to trees or shrubs shall occur between the 1st March and 31st August in any year unless a detailed bird nest survey by a suitably experienced ecologist has been carried out immediately prior to clearance and written confirmation provided that no active bird nests are present which has been agreed in writing by the LPA.
