Dear Sir/Madam,

Cadent Gas Limited
EP – Barlowmoor Clen gas governor 22003255

We are writing to provide information to formally discharge condition 5 of planning permission 135733/FO/2022, which states:

5) a) The gas governor kiosk shall be acoustically insulated and treated to limit the break-out of noise in accordance with a noise study and a scheme of acoustic treatment that has been submitted to and approved in writing by the City Council as local planning authority. The scheme shall be implemented in full before the use of the associated equipment commences.

b) Within one month of the first use of the equipment housed within the Kiosk building a verification report shall be required to validate that the work undertaken throughout the development conforms to the recommendations and requirements in the approved acoustic consultant's report. The report shall also undertake post completion testing to confirm that acceptable criteria have been met. Any instances of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the agreed noise criteria.

In accordance with the above condition, please find attached the Noise Impact Assessment to confirm part (a) of Condition 5. Upon completion of the works, the verification report will be required.

We look forward to receiving confirmation that this condition can be discharged, however, should you have any further comments or questions relating to this, please do not hesitate to contact us.

Yours sincerely

Lucy Davies
