A line drawing of a house. The house has a gabled roof with a chimney on the right side. The chimney has a textured pattern. There is a window on the right side of the house. The house is drawn with simple lines and no shading.

This architectural drawing shows the exterior of the 'House of the Future'. The house is a two-story structure with a modern, geometric design. The upper level features a large, flat roof with a series of horizontal lines, suggesting a glass or metal facade. Two small, square windows are visible on this level. The lower level has a more complex facade with a large, multi-paned window and a smaller, rectangular window to its left. The house is set against a background of a grid, with a vertical line running through the center and a horizontal line running across the middle. The drawing is a black and white line drawing, with no shading or color.

A detailed architectural line drawing of a two-story house. The house features a gabled roof with a chimney on the left side. The front facade has a large central window with four panes, flanked by two smaller windows. The side elevation shows a large window with two panes. The drawing is a black and white line art illustration.
