Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

Listed building: Not applicable

Conservation area: Castlefield Conservation Area 1979

Tree Preservation Order:

Description of area

The application relates to the retention of 4no. bicycle hire stands around the southern end of Deansgate in Manchester's city centre.

Description of development

The application proposals relate to the retention of infrastructure to support a GM cycle hire scheme being introduced within the city and wider area. The infrastructure is in the form of stands used for the parking of hire bikes located predominantly in locations with existing footway.

Consultations & Notification Responses

Publicity - Site notices were posted adjacent the proposed locations of the stands. No representations have been received as a result of this publicity

Highways - no concerns regarding the proposal

TFGM - no comment received

Pedestrian Society - no comment received

Issues

The main policies relating to this application are policies SP1 (Spatial Principles), DM12 (Development Management), T1 (Sustainable Transport) and EN3 (Heritage) of the Manchester Core Strategy (2012), saved policy DC22.1 (Footpath Protection) of the Unitary Development Plan (1995) and Section 9 (Promoting sustainable transport) of the NPPF.

Issues

Principle

The principle of the installation of infrastructure to support a growth in the use of sustainable modes of transport within the city is acceptable and would assist in meeting climate change commitments and assist in improving the air quality particularly along busy roads.

In this instance further consideration of the implications of the proposals on the visual amenity of the area and pedestrian safety amongst other things is required.

Visual Amenity

The stands add to the amount of infrastructure within the pedestrian environment. The stands are relatively unobtrusive by themselves, although when occupied by bikes they are a more visible element within the street furniture. Hence, they are considered to have a moderate impact in the street scene. This impact is considered acceptable given the public benefit derived from the provision of sustainable, zero-emission transport method. On balance the proposals are not considered to give rise to such harmful visual impacts as to warrant refusal.

Pedestrian safety

The application has been considered by Highway Services who raise no objections in relation to pedestrian and highway safety arising from the retention of these stands.

Access

Several applications for stands were approved in 2021, for example app. ref. 132005/FO/2021. At the time, these applications were discussed at the Councils Highways Access Group. Some recommendations were made as follows:

- All sites along a kerb will be 450mm away from the kerb line.
- All sites have been chosen to leave at least 2m of footway around for other users of the space.
- All sites have been chosen to avoid anti-social behaviour and vandalism, as visible as possible and well lit.

Site visits and a review of the design and access statement confirm compliance with these recommendations.

Crime and Safety

The applicant has provided information relating to the robustness of the installations and the way sites for the parking facilities have been chosen. There is also in place mechanism for replacing and removing installations where particular problems arise. No comments have been received from GMP but the information submitted is considered to set out a reasonable approach to dealing with theft and anti-social behaviour that may arise from misuse of the facilities.

Residential amenity

The stands and use of them are not considered to give rise to unacceptable impacts on residential amenity.

M257 - Beetham Tower is on the intersection of two busy roads in the City Centre, including Deansgate - one of the city's main thoroughfares. They experience high levels of automotive and pedestrian traffic until late at night. Therefore, whilst there are residences in the vicinity, it is considered that the docking and use of bicycles at this location is unlikely to generate noise that would have an unacceptable impact on residential amenity.

M184 - Watson Street is adjacent to a large area of residential tower block. Deansgate Square, a popular nightlife destination is also adjacent to the site and so a high level of background noise will be present. No objections from local occupiers have been received. Therefore, the docking

and use of bicycles at this location is unlikely to generate noise that would have an unacceptable impact on residential amenity.

M177 Wellington Place is adjacent to a mixed-use commercial and residential building as well as several of buildings of the Museum of Science of industry. Liverpool Road, which runs perpendicular to the site is a busy road, whilst the ground floor drinking and dining establishments and nearby pub are noisy uses. Therefore, it is considered that there would be high levels of background noise and therefore, the docking and use of bicycles at this location is unlikely to generate noise that would have an unacceptable impact on residential amenity.

Therefore, it is considered that there is a negligible impact on residential amenity caused by the bike stands.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

In assessing the merits of a planning application, officers will seek to work with the applicant in a positive and proactive manner to seek solutions to problems arising in relation to dealing with the planning application.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development hereby approved shall be carried out in accordance with the following drawings and documents:

- Drawing - Site Plan BLOCK PLAN OF THE SITE M177 - Wellington Place
- Drawing - Site Plan BLOCK PLAN OF THE SITE M184 - Watson Street
- Drawing - Site Plan BLOCK PLAN OF THE SITE M257 - Beetham Tower
- Design & Access Statement - Bee Network Cycle Hire Design Access Statement

Both received by the City Council, as local planning authority, on 15/02/2023.

Reason - To ensure that the development is carried out in accordance with the approved plans.
Pursuant to policies SP1 and DM1 of the Core Strategy.
