Details of the pre-application advice received

Thank you for your below email. If the air-conditioning units are to be mounted externally on the building planning permission would be required.

Please find below a list of all the information that will need to be submitted as part of the application for the air conditioning units:

- A location plan with the application site edged in red
- Scaled existing and proposed elevations of the building from all 4 directions, with the relevant street names clearly marked.
- A technical specification of the units. This should include details such as the appearance, dimensions, materials, colour, noise output etc. of the units.
- Details regarding the noise output from the units, including the cumulative impact of all the units operating simultaneously, and any acoustic attenuation measures you are proposing to install to limit the breakout of noise from the units. You should also provide details of the ambient noise levels during the daytime, night and weekends and assess how noise from the units will impact on ambient noise levels.
- Confirmation of when the units will be in operation

You should illuminate your application with a full justification of why the proposed equipment is required. This should include a comprehensive explanation of all the options you have considered in locating the units and a justification as to why each of these options has been discounted, before coming to the conclusion that proposed location is the most appropriate solution.

(a) a member of staff
(b) an elected member
(c) related to a member of staff

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
