Dear James

Re. North Manchester General Hospital Multi-Storey Car Park, Condition 14b Verification Report

1. Background and Information

Curtins completed a ground investigation at the site in June 2021. Ground conditions, generally, comprised topsoil/asphalt overlying granular Made Ground, interbedded cohesive and granular Glaciofluvial Sheet Deposits, cohesive and granular Glacial Till deposits and sandstone of the Chester Formation.

No potential visual or olfactory contamination was observed during the ground investigation works, and chemical analysis of soil samples did not identify any concentrations of contaminants of concern above relevant generic assessment criteria screening thresholds. No suspected asbestos containing materials (ACMs) were identified during the works, or in laboratory screening.

The ground investigation report determined that remediation was not required prior to construction of the Multi-Storey Car Park. A Remediation Strategy was therefore not produced as no remedial actions were recommended.

2. Scope of Verification

This letter has been prepared to facilitate the discharge of Condition 14b, associated with planning application ref. 128905/FO/2020, prior to use of the multi-storey car park. Condition 14b states that:

"When the development commences, the development shall be carried out in accordance with the previously agreed Remediation Strategy and a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority before the first occupation of the development."

3. Summary of Site Operations

Site clearance included the removal of approximately 220 tonnes of soils impacted by Japanese Knotweed. The following documents have been provided confirming its removal:

- Salford Grab Hire Ltd. Duty of Care – Controlled Waste Transfer Note, 41.20/1
- P.P.O'Connor Duty of Care – Controlled Water Transfer Notes, 005471

Curtins Consulting Ltd registered in England No. 2054159
Registered office: 51-55 Tithebarn Street, Liverpool, L2 2SB
Branch registered in Ireland No. 908625

The following buildings were demolished to clear the area prior to the construction of the multi-storey car park:

- Infectious Diseases Offices
- Limbert Nurses Home
- The Old Switchboard Building and
- A sub-station.

During the demolition, asbestos containing materials (ACMs) were identified beneath the basement of the Limbert Nurses Home. P.P.O'Connor removed approximately 20.72 Tonnes of asbestos impacted soil/stones from site as hazardous waste to Pilsworth Landfill, Pilsworth Road, Bury, BL9 8QZ, detailed in the following documents:

- P.P.O'Connor Hazardous Waste Consignment Note ref. PPOCON/16062
- P.P.O'Connor Hazardous Waste Consignment Note ref. PPOCON/16063

Removal of these materials was undertaken in accordance with the following documents:

- Tier Consult Asbestos Management Plan – MSCP, North Manchester General Hospital, ref. TE1650-TE-00-XX-AMP-GE-001-V02, dated May 2022.
- Tier Consult Asbestos in Soils Removal Verification Report for MSCP, North Manchester General Hospital, ref TE1650-TE-00-XX-RP-GE-001-V01, dated July 2022.

P.P.O'Connor removed approximately 900 Tonnes of demolition materials following demolition of Limbert House. The following documents have been provided:

- P.P.O'Connor Duty of Care – Controlled Waste Transfer Note, 005472
- P.P.O'Connor Duty of Care – Controlled Waste Transfer Note, 005473

Maher removed a further 37,700 tonnes of material, including concrete, bricks during the reduced level dig. The following documents have been provided:

- Maher Waste Transfer Note – 01
- Maher Waste Transfer Note – 02
- Maher Waste Transfer Note – 03
- Maher Waste Transfer Note – 04

4. Confirmation of No Unexpected Contamination

Morgan Sindall, the Principal Contractor during the groundworks and construction works, have confirmed that other than the asbestos containing soils identified beneath Limbert House no unexpected contamination was identified. This is confirmed in the enclosed e-mail correspondence.

5. Closure

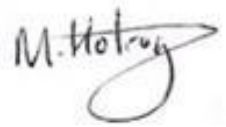

This letter summarises the works undertaken, actions to mitigate against unexpected contamination which have been implemented, during groundworks activities.

We trust this cover letter provides satisfactory detail to allow for the discharge of Condition 14b for the MSCP.

Yours faithfully

Curtins Consulting Ltd
