APPENDICES

APPENDIX A Local Bus Timetables

APPENDIX B Example Travel Survey

1. Introduction

1.1 Preamble

- 1.1.1 Mode Transport Planning ('Mode') has been appointed by Tilbury Douglas Construction Limited (the 'Applicant') to provide transport planning and highways advice in relation to a planning application for the redevelopment of Sandilands Primary School on Wendover Road in Wythenshawe, Manchester.
- 1.1.2 The existing primary school is attended by 427no. pupils aged between 3 and 11 and is accessed via Wendover Road for both pedestrians and vehicles.
- 1.1.3 The proposed scheme comprises the demolition of the existing buildings and construction of a new school. The new school will not result in an increase in pupil or staff numbers. Parking and access to the school site will remain as existing.
- 1.1.4 This School Travel Plan (TP) has been produced alongside the Transport Statement (TS) to support the planning application. The TP's aim to encourage the use of sustainable modes of travel to the site, to reduce the number of single-occupancy vehicles on the local highway network.

1.2 Proposed School Overview

- 1.2.1 The proposed redevelopment of Sandilands Primary School on Wendover Road comprises the demolition of the existing buildings and construction of a new school.
- 1.2.2 The proposed site layout is shown in [Figure 1.1](#).

Figure 1.1 : Proposed Site Plan (source : Ellis Williams Architects)

- 1.2.3 The development proposals include the creation of a new school building, upgraded delivery and servicing area and reconfigured car parking area. The development proposals also include playing fields, sport pitches and hard/ soft landscaped areas.
- 1.2.4 The new school will not result in an increase in pupil or staff numbers. As described previously, the school is attended by 427no. pupils aged between 3 and 11.

Parking Provision

- 1.2.5 The number of on-site staff car parking spaces at the school will remain as existing, comprising a total of 36no. spaces, including 2no. disabled spaces and 5no. EVCP spaces.
- 1.2.6 As existing, barrier-controlled access to the on-site car parking is provided via a c.2.8m wide access junction on Wendover Road. The car park layout (space dimensions and aisle width) will remain largely as existing, albeit slightly reconfigured with all spaces provided off a single central aisle.

- 1.2.7 On the basis that staff numbers will remain as existing, it is considered that the proposed number of parking spaces, access arrangement and car park layout is acceptable to serve the new school development.
- 1.2.8 In terms of cycle parking, the proposed development includes a new cycle shelter (10 bicycles) located close to the main entrance and will retain the existing cycle shelter (12 bicycles) located on the hard-surfaced outdoor area near the western site boundary.

1.3 Overview of the Travel Planning Process

- 1.3.1 A Travel Plan (TP) is a long-term management strategy for integrating proposals for sustainable travel into the planning process. The TP provides a strategy for managing travel demand and involves a dynamic process of implementation, monitoring and review to ensure that it is sustainable over the long-term.
- 1.3.2 The underlying aim of any TP is to minimise the number of single occupancy private car trips generated by a development, by encouraging a shift to more sustainable modes of transport, and as a result mitigating the impact of travel.
- 1.3.3 A successful TP can be established by the Travel Plan Pyramid shown in [Figure 1.2](#).

Figure 1.2 : Travel Plan Pyramid (source: Department for Transport)

1.3.4 This TP forms the starting point in providing the following:

- Details of the provision for cyclists, pedestrians, and public transport users;
- An example toolkit of sustainable travel measures;
- Potential milestone targets that could be developed for on-going implementation; and
- A strategy for ongoing monitoring and review would be developed and this would include the appointment of a designated Travel Plan Co-ordinator who would take on specific responsibility for progressing and reviewing the uptake of measures.

1.3.5 The key objectives of the TP will be taken forward by a Travel Plan Coordinator who will seek to:

- Reduce the need to travel by car to and from the site;
- Promote the health and cost benefits of cycling, walking and using public transport;

- Promote the cost benefits of car sharing;
- Provide clear information to staff and pupils on sustainable modes of travel to and from the site; and
- Provide information to staff and pupils on the alternative sustainable modes of travel.

1.4 Report Structure

1.4.1 Following this introduction, the TP has been structured as follows:

- Chapter 2 outlines the existing conditions at the site, include the local highway network;
- Chapter 3 sets out the sustainable travel connections for the site;
- Chapter 4 outlines the overarching aims, objectives and benefits of the plan;
- Chapter 5 provides an overview of the baseline data to be collected;
- Chapter 6 sets out targets;
- Chapter 7 presents the strategy for managing the plan;
- Chapter 8 identifies the measures and initiatives;
- Chapter 9 outlines how the plan can be monitored and reviewed; and
- Chapter 10 presents an action plan for the implementation and delivery of the TP.

2. Existing Conditions

2.1 Site Location and Existing Use

2.1.1 The site is located in Wythenshawe in Manchester, c.500m south-west of Baguley and c.1.0km north-east of Timperley. The strategic site location is shown in [Figure 2.1](#).

Figure 2.1 : Site Location Plan

2.1.2 The site currently consists of the existing school buildings, as well as associated car parking, playing fields and outdoor sports areas, and is accessed via Wendover Road for both pedestrians and vehicles.

2.1.3 The existing primary school is attended by 427no. pupils aged between 3 and 11. The majority of pupils arrive between 08:30 to 09:15 and depart between 15:00 to 15:30. The school runs a breakfast club which opens at 07:45 every day, as well as after school activities with the last finishing at 17:30 - both are attended by varying numbers of pupils.

2.2 Local Highway Network

2.2.1 The site is bound by woodland and vegetation to the north, Wendover Road to the south and residential properties to the east and west. The location of the development site in the context of the local highway network is shown in [Figure 2.2](#).

Figure 2.2 : Local Highway Network

2.2.2 The existing conditions along Wendover Street, by the school site, are detailed in [Table 2.1](#).

Table 2.1 : Wendover Street – Existing Conditions

Road Classification	Unclassified	Footway Width	c.2.5m both sides, separated on the northern side by a wide grass verge
Road Type	Two-way single carriageway	Pedestrian Facilities	Dropped kerbs and tactile paving at junctions and crossings
Speed Limit	20 mph (with speed cushions)	Cycle Facilities	No
Carriageway Width	c.6.5m	Public Transport Provision	No
Adoption Status	Adopted	Streetlighting	Yes

2.2.3 Wendover Road in the vicinity of the school site is shown in Photograph 2.1 to Photograph 2.2.

Photograph 2.1 : Wendover Road (eastbound)

Photograph 2.2 : Wendover Road (westbound)

2.2.4 Vehicular access to the main school car park is provided via a simple c.3m wide access junction on Wendover Road, c.24m to the east of Goodwood Avenue. Access to the car park is barrier-controlled, as shown in [Photograph 2.3](#).

Photograph 2.3 : Existing Car Park Access on Wendover Road (source: Google)

2.2.5 Vehicular access to Surestart nursery and the school service yard is provided via a gated access on Wendover Road, located opposite Chesterton Road, as shown in [Photograph 2.4](#).

Photograph 2.4 : Existing Nursery Access on Wendover Road (source: Google)

2.2.6 As shown in Figure 2.3, there are existing waiting restrictions and traffic calming measures operational on Wendover Road adjacent to the school, which are intended to prevent inappropriate parking and compliance with the 20mph speed limit.

Figure 2.3 : Waiting Restrictions and Traffic Calming Measures on Wendover Road

2.3 Modal Split

- 2.3.1 To provide a representation of the forecast modal split anticipated at the school, the journey to work data for the population of the site area has been reviewed.
- 2.3.2 It is noted that journey to work data would not accurately represent the student modal split, as such the student modal split targets would need to be updated to reflect the results of the baseline travel survey.
- 2.3.3 Until such data becomes available, the journey to work data from the 2011 Census has been reviewed for the population employed in the site area. The modal split for people employed in the 'Manchester 047' Middle Super Output Area (MSOA) has been examined and is summarised in Table 2.2.

Table 2.2 : Census Travel to Work Data – Modal Split (Manchester 047)

Mode of Travel	Percentage
Driving a car or van	73%
Bus, minibus or coach	8%
On foot	8%
Passenger in a car or van	5%
Bicycle	3%
Underground, metro, light rail or tram	1%
Taxi	1%
Motorcycle, scooter or moped	1%
Total	100%

2.3.4 Table 2.2 indicates that currently 79% of people travel to work by car or van, of which 73% are drivers, 5% are passengers and 1% use taxis. The census data also shows that 21% travel by sustainable methods, including 8% by bus, 8% on foot, 3% by bicycle, 1% by tram, 1% by motorcycle and 1% by taxi.

3. Sustainable Accessibility

3.1 Introduction

- 3.1.1 Current Government policy/guidance places significant emphasis on the promotion of sustainable transport modes for all new developments. This forms part of a long-term strategy to reduce the reliance on private car trips.
- 3.1.2 This chapter considers accessibility via sustainable modes of transport to the proposed development site, including access by public transport, cycle and on foot.

3.2 Pedestrian Accessibility

- 3.2.1 Guideline walking distances provided in the Chartered Institution of Highways and Transportation (CIHT) document '*Guidelines for Providing for Journeys on Foot (2000)*', are shown in [Table 3.1](#).

Table 3.1 : CIHT Guideline Acceptable Walking Distances

Criteria	Town Centre	Commuting	Elsewhere
Desirable	200m	500m	400m
Acceptable	400m	1,000m	800m
Preferred Maximum	800m	2,000m	1,200m

- 3.2.2 Appropriate walking distances are dependent upon the location of the specific development; more remote locations will see people being prepared to walk further to their end destination. Similarly, appropriate walking distances are also dependent upon the standard of existing pedestrian infrastructure provision, with further walking distances achievable in locations with extensive and high-quality pedestrian footways, crossings and pedestrianised areas.
- 3.2.3 [Figure 3.1](#) presents the local amenities accessible within 500m, 1000m and 2000m walking catchments from the site, as specified in CIHT guidance for commuting purposes.

Figure 3.1 : Walking Catchment Area and Local Amenities

3.2.4 **Table 3.2** provides an indication of the distances and approximate walking times to a selection of local amenities. The distances have been measured from the access to the site; the times are based on an average walking speed of 1.4 metres per second and do not allow for waiting time to cross junctions.

Table 3.2 : Local Amenities – Distances and Walking Times

Amenity	Distance	Average Walking Time
Bus Stops on Ferndown Road	400m	4 minutes
Bus Stops on Altrincham Road	450m	5 minutes
Bus Stops on Ferndown Road near Altrincham Road	500m	6 minutes
Baguley Pharmacy	600m	7 minutes
Aldi Supermarket	700m	8 minutes
Tesco Extra Supermarket with ATM and Petrol Station	950m	11 minutes
Timperley Village Centre	1.1km	13 minutes
Wythenshawe Park Metrolink Stop	1.2km	14 minutes

3.3 Cycle Accessibility

- 3.3.1 As with pedestrian accessibility, the level of a site's cycle accessibility depends upon a combination of the distance from local amenities and the standard of existing cycle infrastructure. It should, however, be noted that that cycle infrastructure can include facilities shared with vehicles and pedestrians as well as dedicated cycle infrastructure.
- 3.3.2 In respect of acceptable cycle distances, 'Local Transport Note 1/20: Cycle Infrastructure Design', published by DfT, states that *"two out of every three personal trips are less than five miles in length - which is an achievable distance to cycle for most people"*.
- 3.3.3 **Figure 3.2** presents the cycling catchment area around the proposed development site for 2km and 5km.

Figure 3.2 : Cycle Catchment Area

- 3.3.4 These routes are further supplemented by a number of local cycle routes, accessible within close proximity to the site.
- 3.3.5 As shown in **Figure 3.3**, Transport for Greater Manchester (TfGM) provides local cycle maps highlighting the location and type of routes available within close proximity to the site.

Figure 3.3 : Local Cycle Map (source : TfGM)

3.3.6 As shown in **Figure 3.3**, an on-road cycle route is available along Brooklands Road and a traffic free route is available along Altrincham Road. A Pelican crossing is also across Altrincham Road adjacent to where it joins Brooklands Road.

3.4 Public Transport

Local Bus Services

- 3.4.1 As shown in **Figure 3.1**, the closest bus stops to the site are located on Ferndown Road within c.400m (4-minute walk). Additional services are available from stops further along Ferndown Road within c.500m (6-minute walk).
- 3.4.2 Additional services are also available from Altrincham Road within c.450m (5-minute walk).
- 3.4.3 **Table 3.3** provides a summary of routes and times of local bus services accessible from Ferndown Road and Altrincham Road.

Table 3.3 : Local Bus Services – Ferndown Road and Altrincham Road

Service No.	Route	Approx. Two-Way Frequency (buses / hour)				
		AM	Off-Peak	PM	Sat	Sun
11	Altrincham - Stockport	3	3	3	3	2
18	Eccles – Manchester Airport	1	1	1	1	<1
19	Altrincham - Wythenshawe	2	2	2	2	1
44	Altrincham – Manchester City Centre	1	1	1	1	No Service
281	Altrincham – Sale	1	1	1	1	No Service
370 / 371	Altrincham - Stockport	2	2	2	2	1

3.4.4 As shown in **Table 3.3**, there are several frequent local bus services available from Ferndown Road and Altrincham Road providing access to and from Manchester City Centre, Altrincham, Wythenshawe, Stockport and Sale.

Tram Services

- 3.4.5 Wythenshawe Park Metrolink stops is available within c.1.3km (14-minute walk) to the east of the site.
- 3.4.6 Wythenshawe Park is accessible via the Navy Line which provides access between Manchester Airport and Manchester Victoria Rail Station via Chorlton, St Peters Square and Market Street.
- 3.4.7 This route also provides access to local Metrolink stops including Moor Road, Baguley, Sale Water Park and Wythenshawe Town Centre.
- 3.4.8 **Figure 3.4** depicts the TfGM Metrolink network, with the Navy Line highlighted.

Figure 3.4 : TfGM Metrolink Network Map (source: TfGM)

3.4.9 Services are available approximately every 12 minutes in both directions.

4. Overarching Aim, Objectives and Benefits

4.1 Objectives

4.1.1 This School TP is targeted at combating over-dependency on cars by boosting and encouraging alternatives to private car use. In order to do this, the TP has the following broad objectives:

- To instil a culture of sustainable travel behaviour amongst staff and pupils;
- To deliver ease of access to key facilities by enabling walking, cycling, public transport and car sharing to local transport routes, local amenities and surrounding residential areas;
- To promote healthy lifestyles and raise awareness about the benefits of utilising sustainable travel opportunities; and
- To design the development using best practice urban design principles that open up the permeability of the development, encouraging walking and cycling as the first choice for accessing the school.

4.2 Benefits

4.2.1 By meeting the objectives, the TP will bring about the following benefits:

Staff / Pupil Benefits

- Health benefits associated with walking and cycling, including reduced levels of stress;
- The opportunity to save money using alternative modes of travel to the car;
- Improved quality and reliability of journeys to and from work / school;
- Greater independence for pupils who are able to travel on their own via sustainable modes; and
- A safer school environment with less vehicles on site.

Developer Benefits

- An improved compliance with the planning context; and
- A demonstration of any environmental credentials.

Wider Community Benefits

- On-going reductions in vehicular generated traffic on the local highway network;

- Increasing patronage on existing public transport modes;
- Health benefits associated with walking and cycling; and
- A contribution towards overall reduction in travel emissions.

4.3 Indicators

4.3.1 The, now superseded, *'Good Practice Guidelines: Delivering Travel Plans through the Planning Process'* highlights the importance of establishing clear indicators to monitor travel behaviour at the site. This information can subsequently be used to identify where the greatest potential for mode shift may lie and to inform the implementation strategy for the TP over the coming year. A number of indicators will be measured at the proposed development.

4.3.2 The responsibility for measuring these indicators lies with the Travel Plan Coordinator (TPC), with support from Manchester City Council (MCC), and could include the following:

- Percentage of trips made by staff and pupils on foot;
- Percentage of trips made by staff and pupils by bicycle;
- Percentage of trips made by staff and pupils using public transport; and
- Percentage of trips made by staff and pupils car sharing and registered with a car sharing database.

5. Baseline Data Collection

5.1 Baseline Travel Survey

- 5.1.1 A baseline travel survey will be undertaken within 3 months of the opening of the developed school. The results of the travel survey will be submitted to MCC.
- 5.1.2 The baseline travel survey results will be used to inform updated modal split targets. The survey results will provide a valuable 'baseline' against which the success of the TP, in reducing car journey and increasing journey by walking, cycling and public transport, will be measured.
- 5.1.3 Example staff and pupil travel surveys are attached in [Appendix B](#). Travel surveys will be distributed by the school to pupils and staff via hard copy form or by electronic / online platforms.
- 5.1.4 The travel survey will be recirculated every 2 years following the submission of baseline survey results to MCC as part of the monitoring and review process. The survey results will be collated and analysed by the TPC and the School TP will be updated to reflect the latest modal share results and any changes to the TP targets as necessary, along with any other changes from the previous monitoring period.
- 5.1.5 Travel surveys will be anonymous and only the TPC will have access to all raw survey data and results. The TPC will ensure that MCC have access to the summary results once these have been processed, in accordance with GDPR requirements.
- 5.1.6 The following information will be obtained:
- How staff and pupils usually travel to and from the site (walking, cycling, using public transport, arriving by car or car sharing with others).
 - Where staff and pupils are generally travelling to / from, possibly in the form on postcode data.
 - Which places are considered to be dangerous for walking or cycling, and why.
 - How staff and pupils would like to travel if they had the choice and whether they own a bicycle or have a bus pass.
- 5.1.7 The updated TP will be issued to MCC for review and the TPC will amend the TP in response to any comments as necessary.

6. Travel Plan Targets

6.1 Purpose of Target Setting

- 6.1.1 Targets are the measurable goals by which progress will be assessed. The TP sets out mode share targets that the site will seek to achieve via liaising with MCC. These mode share targets are **SMART**; that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic and **T**ime related.

6.2 Mode Share Targets

Staff and Pupil Mode Share Targets

- 6.2.1 The staff and pupils modal share targets are outlined in **Table 6.1**. The staff modal share targets are based on the modal split data for the 'Manchester 047' MSOA outlined in **Table 2.1**, and pupil modal share targets are based on the Operator's estimates.

Table 6.1 : Pre-Survey Modal Share Targets

Mode of Travel	Modal Share Targets by Timescales					
	Baseline	Year 1	Year 2	Year 3	Year 4	Year 5
Single Occupancy Vehicle (SOV)	73%	71%	69%	67%	65%	63%
Sustainable Travel Modes	27%	29%	31%	33%	35%	37%

- 6.2.2 The targets outlined in **Table 6.1** aim to achieve a **10%** mode shift from SOV trips to sustainable travel modes (and corresponding **10%** uplift in sustainable modes) for both staff and pupils. The actual baseline mode share will be confirmed as part of initial baseline travel survey. At this stage, these are interim percentages based upon the multimodal trip calculations from Census 2011 data. The mode share targets are therefore subject to change.

6.3 Summary

- 6.3.1 It is recognised that it is not possible to set accurate targets far into the future, even when based on actual modal share data. Given this, it should be acknowledged that the targets will be reviewed once the baseline surveys have been completed and existing travel behaviour is known.
- 6.3.2 All future data collection will be undertaken in accordance with local authority standards, to ensure the TP is being accurately monitored and that targets are being met.

7. Travel Plan Management

7.1 Overview

7.1.1 This chapter sets out the actions and responsibility for managing the TP. Further actions are presented in the Action Plan in [Chapter 10](#).

7.2 Travel Plan Co-ordinator

Role and Responsibilities

7.2.1 The TPC will act as a liaison point for staff and pupils for any issues relating to the TP. The role will also include liaising with the local authority and public transport operators, where required.

7.2.2 The roles and responsibilities of the TPC will include:

- Administer and manage the TP and provide a liaison with MCC when implementing the plan;
- Ensure travel awareness amongst staff and pupils;
- Provide a point of contact to discuss travel information and options;
- Promote and encourage the use of sustainable travel modes as an alternative to single occupancy car trips, where appropriate; and
- Ensure the availability of the most up to date travel information.

7.2.3 The TPC will be responsible for conducting a new travel survey every 2 years. The TPC will submit these results to MCC and they will inform the relevant targets and measures for the TP document.

7.2.4 A TPC will be appointed upon the reopening of the school.

7.3 Liaising with Stakeholders

7.3.1 It will be necessary for the TPC to liaise with MCC and local public transport operators on a regular basis to obtain information and share ideas, review the existing TP, to monitor the effectiveness and to agree new measures required to meet the TP aims, objectives and targets.

7.3.2 As part of the TPC role, where required, they would need to liaise with other interested parties which can include sharing ideas with other adjacent businesses or developments, working with a transport authority to obtain/development information to pass on to users and liaising with other groups such as cycle user groups.

8. Travel Plan Measures

8.1 Overview

- 8.1.1 This section of the report will outline the specific physical and management measures which should be undertaken as part of the TP.

8.2 Travel Survey

- 8.2.1 Travel Survey's will be undertaken every 2 years. The Travel Survey results will provide valuable data which the success of the TP, in reducing car journey and increasing journey by walking, cycling and public transport, will be measured.
- 8.2.2 Results of the survey will be recorded in a GDPR compliant database by the TPC.
- 8.2.3 The Travel Survey will be distributed via hard copy form or by electronic / online platforms. The Travel Survey will aim to generate a response rate of 50%. Further opportunities to improve response rates will be explored throughout the duration of the TP.

8.3 Encouraging Walking

- 8.3.1 In order to encourage walking at the site, the TPC will ensure that staff and pupils have received information and advice concerning safe pedestrian routes to and from the site. Staff and pupils will also be encouraged to walk by promoting the benefits which include health, reduction in stress, cost and environmental benefits.
- 8.3.2 Walking routes can be planned via the following links:
- <https://www.google.co.uk/maps>
 - <https://www.routeyou.com/en-gb/route/planner/2/walking-route-planner>
 - <https://my.tfgm.com/#/planner/>
- 8.3.3 The TPC will promote key events throughout the year, such as 'Walk to Work'.
- 8.3.4 For pupils, walking in pairs / groups will be encouraged to improve safety.

8.4 Encouraging Cycling

- 8.4.1 In terms of proposed operational measures, the TPC role will include the promotion of cycling, including providing details of the local cycle routes/ facilities accessible from the development and other relevant information such as bicycle purchase/ repair.
- 8.4.2 Secure cycle storage will be provided, with 10no. spaces for staff and 24no. spaces for pupils.

8.4.3 Cycle journeys and routes can be planned via the following links:

- <https://www.cyclinguk.org/journey-planner>
- <https://www.sustrans.org.uk/national-cycle-network>
- <https://www.bikemap.net/en/routeplanner/>
- <https://my.tfgm.com/#/planner/>
- <https://www.sustrans.org.uk>

8.4.4 School-specific cycling events should also be promoted. These may include:

- Sustrans Big Walk and Wheel - <https://www.sustrans.org.uk/our-blog/projects/uk-wide/schools/sustrans-big-walk-and-wheel/>
- Bikeability Cycle to School Week - <https://www.bikeability.org.uk/cycletoschoolweek/>

8.4.5 Further information regarding local cycle routes around Wythenshawe and Manchester, groups and facilities can be found via the following sites:

- <https://beeactive.tfgm.com/>
- https://www.manchester.gov.uk/info/500356/cycling_and_walking/6850/cycling
- <https://wheelsforall.org.uk/locations/wythenshawe-wheelers>

8.4.6 The cycling charity Cycling UK can offer a variety of training and mentoring opportunities to help less experienced cyclists build their confidence to travel on the road network:

- <http://www.cyclinguk.org/courses-and-training>

8.5 Promoting Public Transport

8.5.1 The promotion of walking and cycling will encourage many staff and pupils to adopt these modes, but for those travelling further to the school, public transport provides a more suitable alternative to the private car. A lack of awareness of the facilities available is often cited as a reason for not using public transport facilities.

8.5.2 The TPC will therefore ensure that up-to-date public transport frequency information is available to staff and pupils to maximise the potential use of these modes.

Local Bus Services

8.5.3 Bus routes, timetables and ticketing information can be accessed via the following links:

- <https://www.gonorthwest.co.uk/>

- <https://www.stagecoachbus.com/plan-a-journey>
- <https://www.arrivabus.co.uk/latest-news?page=1>

Rail Services

8.5.4 Local rail services can be viewed on the following websites:

- <https://www.thetrainline.com/>
- <https://www.nationalrail.co.uk/>

8.5.5 To build more sustainable travel habits, the TPC will explore the opportunity to provide discounted bus or tram tickets for pupils.

8.6 Promoting Car Sharing and Car Hire

8.6.1 Car sharing represents a convenient and alternative form of travel with significant potential to reduce the total private mileage. This alternative is suitable for staff.

8.6.2 The principal benefits associated with the introduction of a car sharing scheme are considerable and include:

- Reduced travel costs – drivers and passengers can split the costs of travel;
- Improved access – to areas which aren't accessible through public transport;
- Meet new people – sharing a car is a great way to meet colleagues, friends and neighbours;
- Reduced congestion – by sharing cars you can do your bit to help reduce congestion in the area;
- Reduced pollution – cutting congestion will also help to reduce pollution; and
- Reduced Carbon Dioxide emissions – which in turn will help to reduce the development of global warming.

8.6.3 Staff will be provided with details of publicly accessible databases and websites that provide the opportunity for people to car share in the wider area. These may include:

- <https://gocarshare.com/>
- <https://liftshare.com/uk>

8.6.4 The TPC will identify a car share scheme to be promoted to staff. For example, TfGM's car sharing website is suitable:

- <https://travelplantookit.tfgm.com/implement/supporting-initiatives/car-sharing>

8.7 Car Alternatives

- 8.7.1 It is understood that sometimes access by car is necessary. Staff and pupils will also be provided with the details of local minicab / taxi firms, as necessary.

9. Monitoring and Review

9.1 Overview

9.1.1 Monitoring of the TP includes the following key roles led by the TPC:

- To provide feedback to allow the TP to be developed; and
- To measure the level of success in meeting identified targets of this TP using key performance indicators.

9.1.2 A strategy for undertaking the monitoring and review is outlined in this section.

9.2 Monitoring Strategy

9.2.1 A Monitoring Report will be submitted to the Local Planning Authority, MCC, to illustrate to what extent the agreed 'outputs' and 'outcomes' in the TP have been achieved. Once submitted, the Local Planning Authority will provide written comments on the report, which may lead to modifications to the original measures if required. The full TP will be submitted to MCC within 3 months of the first survey.

9.2.2 The success of a TP should be assessed in terms of the effect the implemented measures have had on the achievement of the TP targets.

9.2.3 The monitoring programme will begin with the initial baseline travel questionnaire survey, to be undertaken within 3 months of the school opening. Further surveys will be undertaken every 2 years.

9.2.4 The surveys undertaken will also confirm the numbers surveyed, the number of respondents, the date of survey, the type of survey used and how the modal split has been calculated.

9.3 Travel Plan Review

9.3.1 The TPC will arrange for a review of the TP every 2 years to assess the success of the plan to date. The TPC will then prepare a monitoring report which will summarise the results of the travel surveys taken every 2 years, assess the results against the TP targets to provide an indication of the success of the TP, and identify measures which could potentially be included in the future.

9.3.2 The re-issue of the travel questionnaire will provide the opportunity for staff and pupils to gather new information regarding attitudes to travel.

10. Action Plan

10.1.1 A Timetable and Action Plan is outlined in [Table 10.1](#). This provides a schedule of the key actions detailed within this School TP in terms of who is responsible and their timescale. All actions are directed at influencing travel patterns to achieve the stated targets in-line with the objectives.

Table 10.1 : Travel Plan Action Plan

Activity	Description	Frequency for Review	Deadline for Completion After Occupation	Lead
Appoint Travel Plan Co-ordinator	Lead person identified to co-ordinate the development and implementation of the Travel Plan	Annual	Prior to Occupation	School
Baseline assessment of modes of travel and preferences and questionnaires	Engagement with staff and pupils through questionnaires in order to provide a baseline assessment.	Every 2 years	Undertaken within 3 months of school opening	TPC
Analysis of Baseline Information	Analysis of survey information in order to identify trends, make recommendations and develop action plan.	Every 2 years	1 month after each survey	TPC
Develop Action Plan	Information used to identify initiatives which are set out in a detailed action plan	Every 2 years	2 months after each survey	TPC
Sign Off Plan	Formal approval of Travel Plan and its activities by MCC	One-off sign off	Within 6 months of initial occupation	TPC
Review, Update and Report	Review Travel Plan, including results of surveys and questionnaires. Update action plan as required and submit progress report to MCC	Every 2 years	2 years following initial sign off	TPC

APPENDICES

APPENDIX A Local Bus Timetables

From 29 August

11

Route changed in Stockport town centre due to the temporary closure of Stockport Bus Station. Monday to Friday peak period times are also changed

Bus

8am – 8pm Sat, Sun & public holidays

This timetable is available online at
www.tfgm.com

From 29 August 2021

Operated by
Stagecoach

Additional information

Alternative format

To ask for leaflets to be sent to you, or to request large print, Braille or recorded information phone 0161 244 1000 or visit www.tfgm.com

Easy access on buses

Journeys run with low floor buses have no steps at the entrance, making getting on and off easier. Where shown, low floor buses have a ramp for access and a dedicated space for wheelchairs and pushchairs inside the bus. The bus operator will always try to provide easy access services where these services are scheduled to run.

Using this timetable

Timetables show the direction of travel, bus numbers and the days of the week.

Main stops on the route are listed on the left. Where no time is shown against a particular stop, the bus does not stop there on that journey. Check any letters which are shown in the timetable against the key at the bottom of the page.

Where to find information about service changes

www.tfgm.com

Bus station posters

Leaflets from outlets.

Tickets and information

Bus companies offer a range of tickets for use on their own buses. For travel on any service in the County, use System One tickets, including DaySaver. Travelshops provide tickets, information and journey planning advice on buses, trains and trams for work and pleasure.

Using the 24 hour clock

Times are shown in four figures. The first two are the hour and the last two are the minutes.

0753 is 53 minutes past 7am

1953 is 53 minutes past 7pm

From 30 October 2022

Operated by
Arriva North West

Additional information

Alternative format

To ask for leaflets to be sent to you, or to request large print, Braille or recorded information phone 0161 244 1000 or visit www.tfgm.com

Easy access on buses

Journeys run with low floor buses have no steps at the entrance, making getting on and off easier. Where shown, low floor buses have a ramp for access and a dedicated space for wheelchairs and pushchairs inside the bus. The bus operator will always try to provide easy access services where these services are scheduled to run.

Using this timetable

Timetables show the direction of travel, bus numbers and the days of the week.

Main stops on the route are listed on the left. Where no time is shown against a particular stop, the bus does not stop there on that journey. Check any letters which are shown in the timetable against the key at the bottom of the page.

Where to find information about service changes

www.tfgm.com

Bus station posters

Leaflets from outlets.

Tickets and information

Bus companies offer a range of tickets for use on their own buses. For travel on any service in the County, use System One tickets, including DaySaver. Travelshops provide tickets, information and journey planning advice on buses, trains and trams for work and pleasure.

Using the 24 hour clock

Times are shown in four figures. The first two are the hour and the last two are the minutes.

0753 is 53 minutes past 7am

1953 is 53 minutes past 7pm

Easy access on buses

Journeys run with low floor buses have no steps at the entrance, making getting on and off easier. Where shown, low floor buses have a ramp for access and a dedicated space for wheelchairs and pushchairs inside the bus. The bus operator will always try to provide easy access services where these services are scheduled to run.

Using this timetable

Timetables show the direction of travel, bus numbers and the days of the week.

Main stops on the route are listed on the left. Where no time is shown against a particular stop, the bus does not stop there on that journey. Check any letters which are shown in the timetable against the key at the bottom of the page.

The map illustrates the route of bus 281, which is a circular service connecting Altrincham, Brooklands, and Sinderland. The route is shown as a thick black line with arrows indicating the direction of travel. Key locations and roads along the route include:

- Altrincham:** The route starts at Altrincham Interchange, near the Metrolink stop and train station. It follows the A56 towards Navigation Road and then Brooklands Road.
- Brooklands:** The route continues through Brooklands, passing Brooklands Road, Marsland Road, and Northenden Road. It includes a connection point with the tram line at Brooklands.
- Sinderland:** The route reaches Sinderland via Sinderland Road, where it connects with the train line. It then follows Stamford Brook Road and Manchester Road back towards Brooklands.
- Timperley:** The route passes through Timperley, including Park Road and Stonemasons Arms.
- Brooklands Moor:** The route includes a loop in the Brooklands Moor area, passing Woodlands Road, Broad Road, and Old Hall Road.

The map also shows other transport infrastructure, including the Metrolink tram line, the train line, and various bus stations and connection points. The route is marked with the number 281 at its terminus points.

Operated by
Diamond
Stagecoach

Additional information

Alternative format

To ask for leaflets to be sent to you, or to request large print, Braille or recorded information phone 0161 244 1000 or visit www.tfgm.com

Easy access on buses

Journeys run with low floor buses have no steps at the entrance, making getting on and off easier. Where shown, low floor buses have a ramp for access and a dedicated space for wheelchairs and pushchairs inside the bus. The bus operator will always try to provide easy access services where these services are scheduled to run.

Using this timetable

Timetables show the direction of travel, bus numbers and the days of the week. Main stops on the route are listed on the left. Where no time is shown against a particular stop, the bus does not stop there on that journey. Check any letters which are shown in the timetable against the key at the bottom of the page.

Where to find information about service changes

www.tfgm.com

Bus station posters

Leaflets from outlets.

Tickets and information

Bus companies offer a range of tickets for use on their own buses. For travel on any service in the County, use System One tickets, including DaySaver. Travelshops provide tickets, information and journey planning advice on buses, trains and trams for work and pleasure.

Using the 24 hour clock

Times are shown in four figures. The first two are the hour and the last two are the minutes.

0753 is 53 minutes past 7am

1953 is 53 minutes past 7pm

APPENDIX B

Example Travel Survey

Travel Survey Questionnaire

Please return the survey once you have completed it. (Be assured that any personal data will be kept confidential) Please select an answer to the questions below with a tick:

1. Your postcode:

2. Are you: Male ☐ Female ☐

3. Your age: 16-25 ☐ 26-40 ☐ 41-55 ☐ 56+ ☐

4. How often do you typically travel to the site?

- ☐ Multiple times a day
- ☐ Most days
- ☐ Up to three times a week
- ☐ Once a week
- ☐ Less than once a week

5. How do you usually travel off site?

Please tick your usual mode of travel for the longest part of your journey:

Walk	Cycle	Bus	Train	Light Rail	Car Driver	Car Passenger

6. Would you be interested in receiving more information on the following?

- ☐ Local public transport options
- ☐ Car sharing opportunities
- ☐ Walking maps for the area
- ☐ Cycle maps for the area
- ☐ Other (Please specify).....

Do you have any further comments or suggestions about how we can improve your journey to work options?

.....

.....

.....

.....

Thank you taking the time to complete this questionnaire
