

To threshold 291mm - 265mm finished  
floor level = 26mm / 25.4mm =  
1.023m over 5.070m shallower than  
1:20 (approx 1:180)

Handrail option to left of ramp 900mm above  
surface due to difference in ground level

Proposed side elevation

|                                                                                                                                                  |                                                                                  |  |                       |                                                                                                                                                      |
