Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I would like to object to this plan for various reasons:

1. The plan for this new building significantly contradict the original Great Jackson Street Framework, where there would have been a variety of building heights, most below 30 floors, whilst now any new building is 50 floors or higher
2. Concern with wind factor assessment in the neighbourhood. The projections on the original development cannot possibly have been in line with what happens now (as demonstrated by the trees blowing down etc). The higher they build the windier it will be
3. The new building will cause loss of natural light from every aspect to the neighbourhood.
4. No provision for increasing local services, schools, healthcare, to meet the increased population.
5. Reduced privacy from each aspect for all the existing and approved neighbouring buildings
6. Given the height of the buildings in the Great Jackson / Owen St area, more space between them is required, more variety of building height, and more communal green spaces.

7. Lack of social housing in the whole new area. This plan further reduces opportunities for social housing.
