Details of the pre-application advice received

As part of a planning application elevational drawings will be required, of the unit, which clearly show how the unit will look with the screening in place, to demonstrate that the unit would have an acceptable visual impact in the park.

I note that you have provided an elevational drawing, which shows the trellis shaded in green, and then photos of the trellis and the climbing plants, but this does not give a clear impression, as to how the unit would look in situ. As part of the application, we need to carry out consultations, including with residents, so it needs to be clear to them, and us, how the unit will look. For example, would the overriding treatment be of trellis or ivy? A portacabin with some trellis screening, and a bit of planting, would look entirely different to one where the unit is completely hidden by the level of climbing plants. If you have images of another site, where this treatment has been used, that might be sufficient.

To be honest, we still have some concerns about the images supplied of the second-hand container. However, that is not to say that the screening you have suggested would not overcome this. This can only be definitively determined when we have some final images/drawings, which show the proposed units and the level of screening proposed, either at the planning application stage, or prior to submission of the application, if you prefer.

In terms of the proposed toilet facilities, I assume that the accessible toilet, for disabled people, would also be available to all customers. Please can you confirm.

Philip,

I refer to your email below.

I would firstly confirm that planning permission would be required, for this facility, and we would be generally supportive of the proposal.

In order to comment further though, we would need some additional information, about the proposal, including in relation to the following matters:

- Based on the submitted photographs, the containers do not appear to be of the highest quality. Would there be scope for upgrading the appearance of the containers and the final development as a whole? How does it relate, visually, to any other structures in the park? Is any additional tree planting proposed to screen the unit/soften its impact?
- Information is needed in relation to hours of operation. For example, would the unit be offering hot food take-away sales late into the evening?
- Would there be any servicing of the unit from vehicles and is there an existing route for this?
- Is it purely for sales of food and drink, to park visitors, or will community events be held there?
- Have you consulted any ward members about the proposal?

Please provide some additional details and we will respond further.

You can provide your pre-application here, please provide as much information including address and proposals, the pre-application is free and will be looked at within the planning team who will respond to you directly.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
