Hi Lucy

I write to you regarding the proposals you sent to Rob Griffin in our Planning Department to discharge condition 5 of the above planning application for a gas governor kiosk.

The methods you propose to use to assess the background noise and the potential noise from the proposed development are acceptable.

This looks like a robust approach for assessing the noise at the nearest noise sensitive receptors.

As you have said that any necessary mitigation measures and the noise insulation details of the kiosk will be included in the report, this should provide all the information needed to assess the proposed scheme from a noise perspective.

Kind regards
