

character or appearance of the building;

- c. not permit any external or internal alteration or addition to a Listed building where, in its opinion, there would be an adverse effect on its architectural or historic character;
- d. seek to preserve and enhance the settings of listed buildings by appropriate control over the design of new development in their vicinity, control over the use of adjacent land, and where appropriate, by the preservation of trees and landscape features;
- e. permit demolition only where there are approved detailed plans for redevelopment and where there is evidence of a firm building contract;
- f. not permit alterations to a listed building which would prevent the future use of any part of the building, in particular upper floors or basements, or where poor maintenance is likely to result.

Reasons:-

The above policies are to be pursued by the Council to help ensure the protection of the City's built character and its heritage. Retention and protection of this character is important in encouraging local pride, tourism and future investment in the city. The Council recognises that listed buildings can present particular problems in respect of their continuing use. A flexible approach will be taken in determining applications for uses in listed buildings. The policy gives effect to the obligation placed on the Council by statute to give particular attention to retain, restore, maintain and continue uses in listed buildings in Manchester.

20. ARCHAEOLOGY

DC20.1 The Council will give particular careful consideration to development proposals which affect scheduled Ancient Monuments and sites of archaeological interests, to ensure their preservation in place. In particular:

- a. Applications for consent to alter scheduled Ancient Monuments or sites of archaeological interest or their settings should be accompanied by an evaluation and assessment of the implications of the proposal.
- b. The Council will have special regard to the desirability of securing the preservation of Ancient Monuments and other sites of archaeological interest and their setting in place. It will not permit development that, in its opinion, would adversely affect scheduled Ancient Monuments, or other sites of archaeological interests, and their settings, In exceptional cases where development is inevitable, the Council will look at the scope for combining preservation in place with limited investigation and recording.
- c. Where the preservation of scheduled Ancient Monuments and sites of archaeological interest in place is not appropriate, the Council will seek to gain full and proper recording of the site through early consultation between the applicant and approved archaeological organisation.

Reasons :-

Ancient Monuments and sites of archaeological interest are valuable as part of Manchester's heritage and there is a presumption for their retention in place and against any damage occurring to them or to their setting. The policy gives effect to the obligation placed on the Council by statute to give particular attention to development proposals affecting Ancient Monuments and sites of archaeological interest, and reflects the general policy objective set out policy E2.8 in this plan. The Council will rely on the coverage of Ancient Monuments and sites of archaeological interest contained in the Sites and Monuments Record for Manchester for evidence of known archaeological remains.

22. FOOTPATH PROTECTION

DC22.1 In considering development proposals, the Council will have regard to the effect on existing pedestrian routes and will not normally allow development which would result in unacceptable inconvenience to local pedestrian movement.

Reasons :-

New development can result in the dislocation of locally valuable pedestrian routes. The Council wishes to avoid creating lengthy and unattractive diversions for pedestrians wherever this is
