

For the attention of Manchester City Council Planning Authority

23rd March 2023

Re: Xaverian College, Manchester - Notice of application re additional mobile classrooms and demolition of two garages and boundary wall at the land to the rear of St Edwards Church.

Dear Sirs,

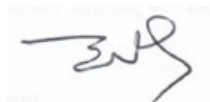

The Diocese of Salford has received notification of the above planning application from Xaverian college. The Diocese owns the land affected by the planning proposals and has been kept fully informed by Xaverian College of this intended application.

The Diocese confirms its support for the application, which will provide much needed facilities for Xaverian College whilst it undertakes essential development works upon the main college site.

We should add that the property subject to this application is held for the charitable purposes of the parish of St Edwards but the college site itself is also held on educational trusts as a Roman Catholic sixth form college. As such, both the main college site and the planning application site are very complementary to the mission and charitable objectives of the Diocese.

We can see considerable benefits to the college, its community and also the parish of St Edwards with these proposals.

Yours sincerely,

Edward Nally

Secretary to the Trustees
