Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Dear officer dealing with the planning application for 69 Crumpsall lane. The residents of Crumpsall lane do not believe that this conversion would be a good idea for our community. By converting the care home into flats we would expect there to be an increase in parking issues as well as an increase in noise. The flow of traffic would also be disturbed with the additional residents. The associated elevation would also be an eyesore to the road and cause much disruption. We are also extremely worried about anti-social behaviour to be a problem. We hope you take these views into consideration.

Kind regards
