Drawing State

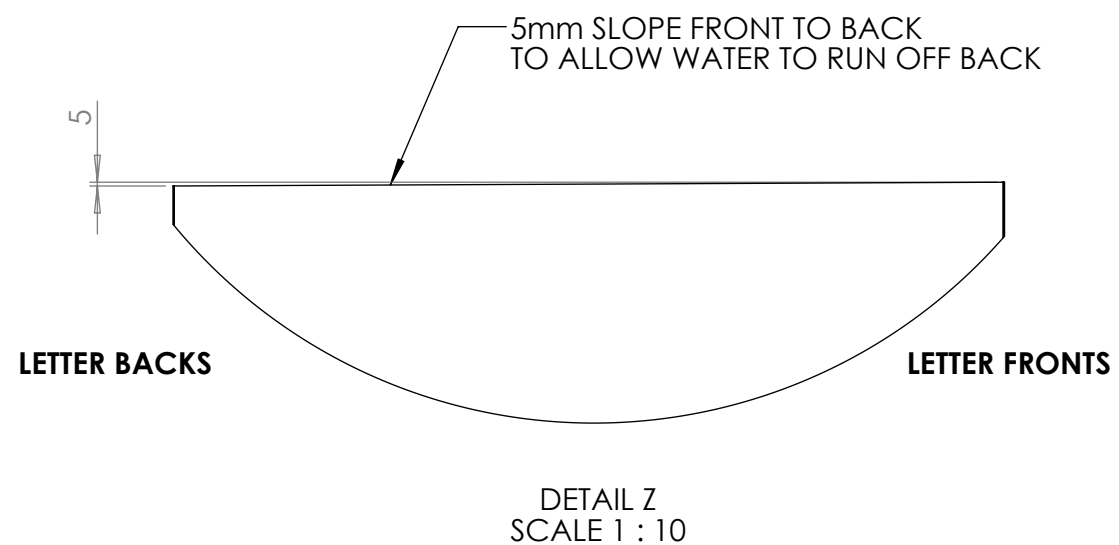

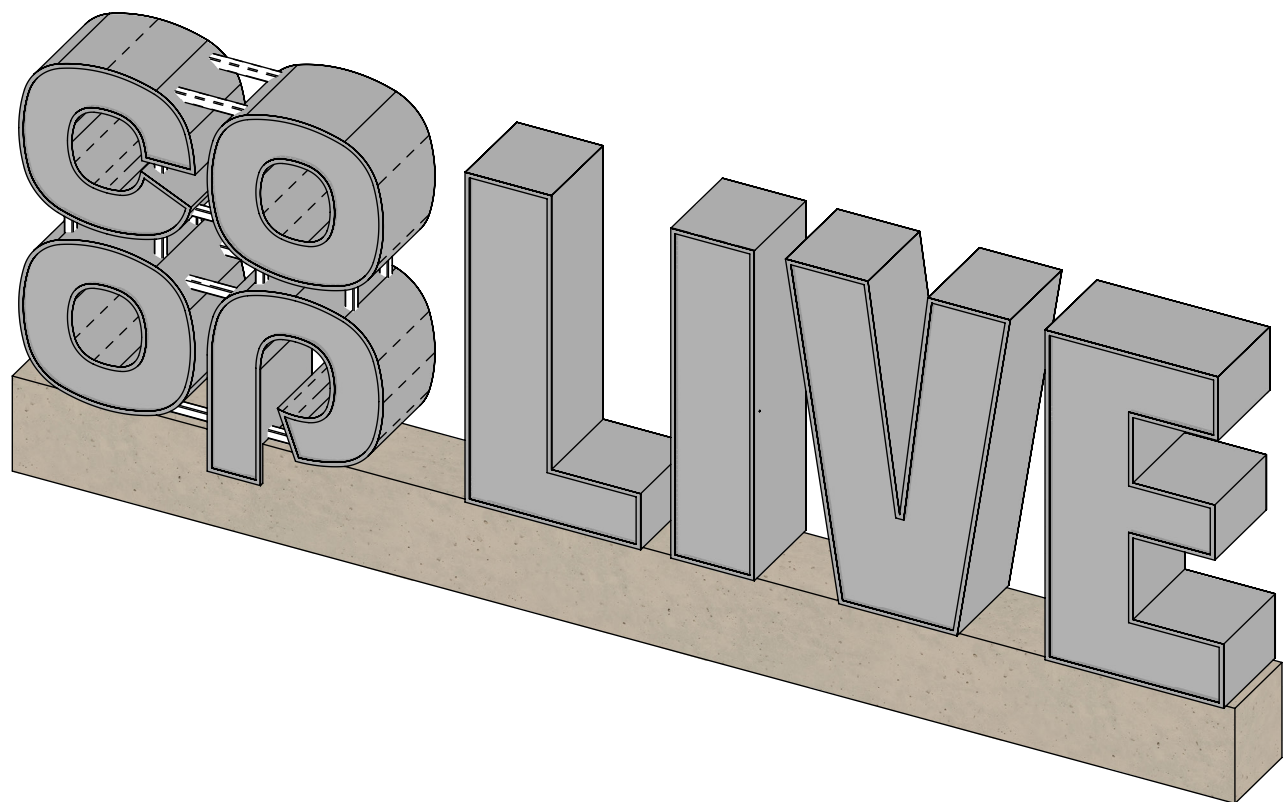

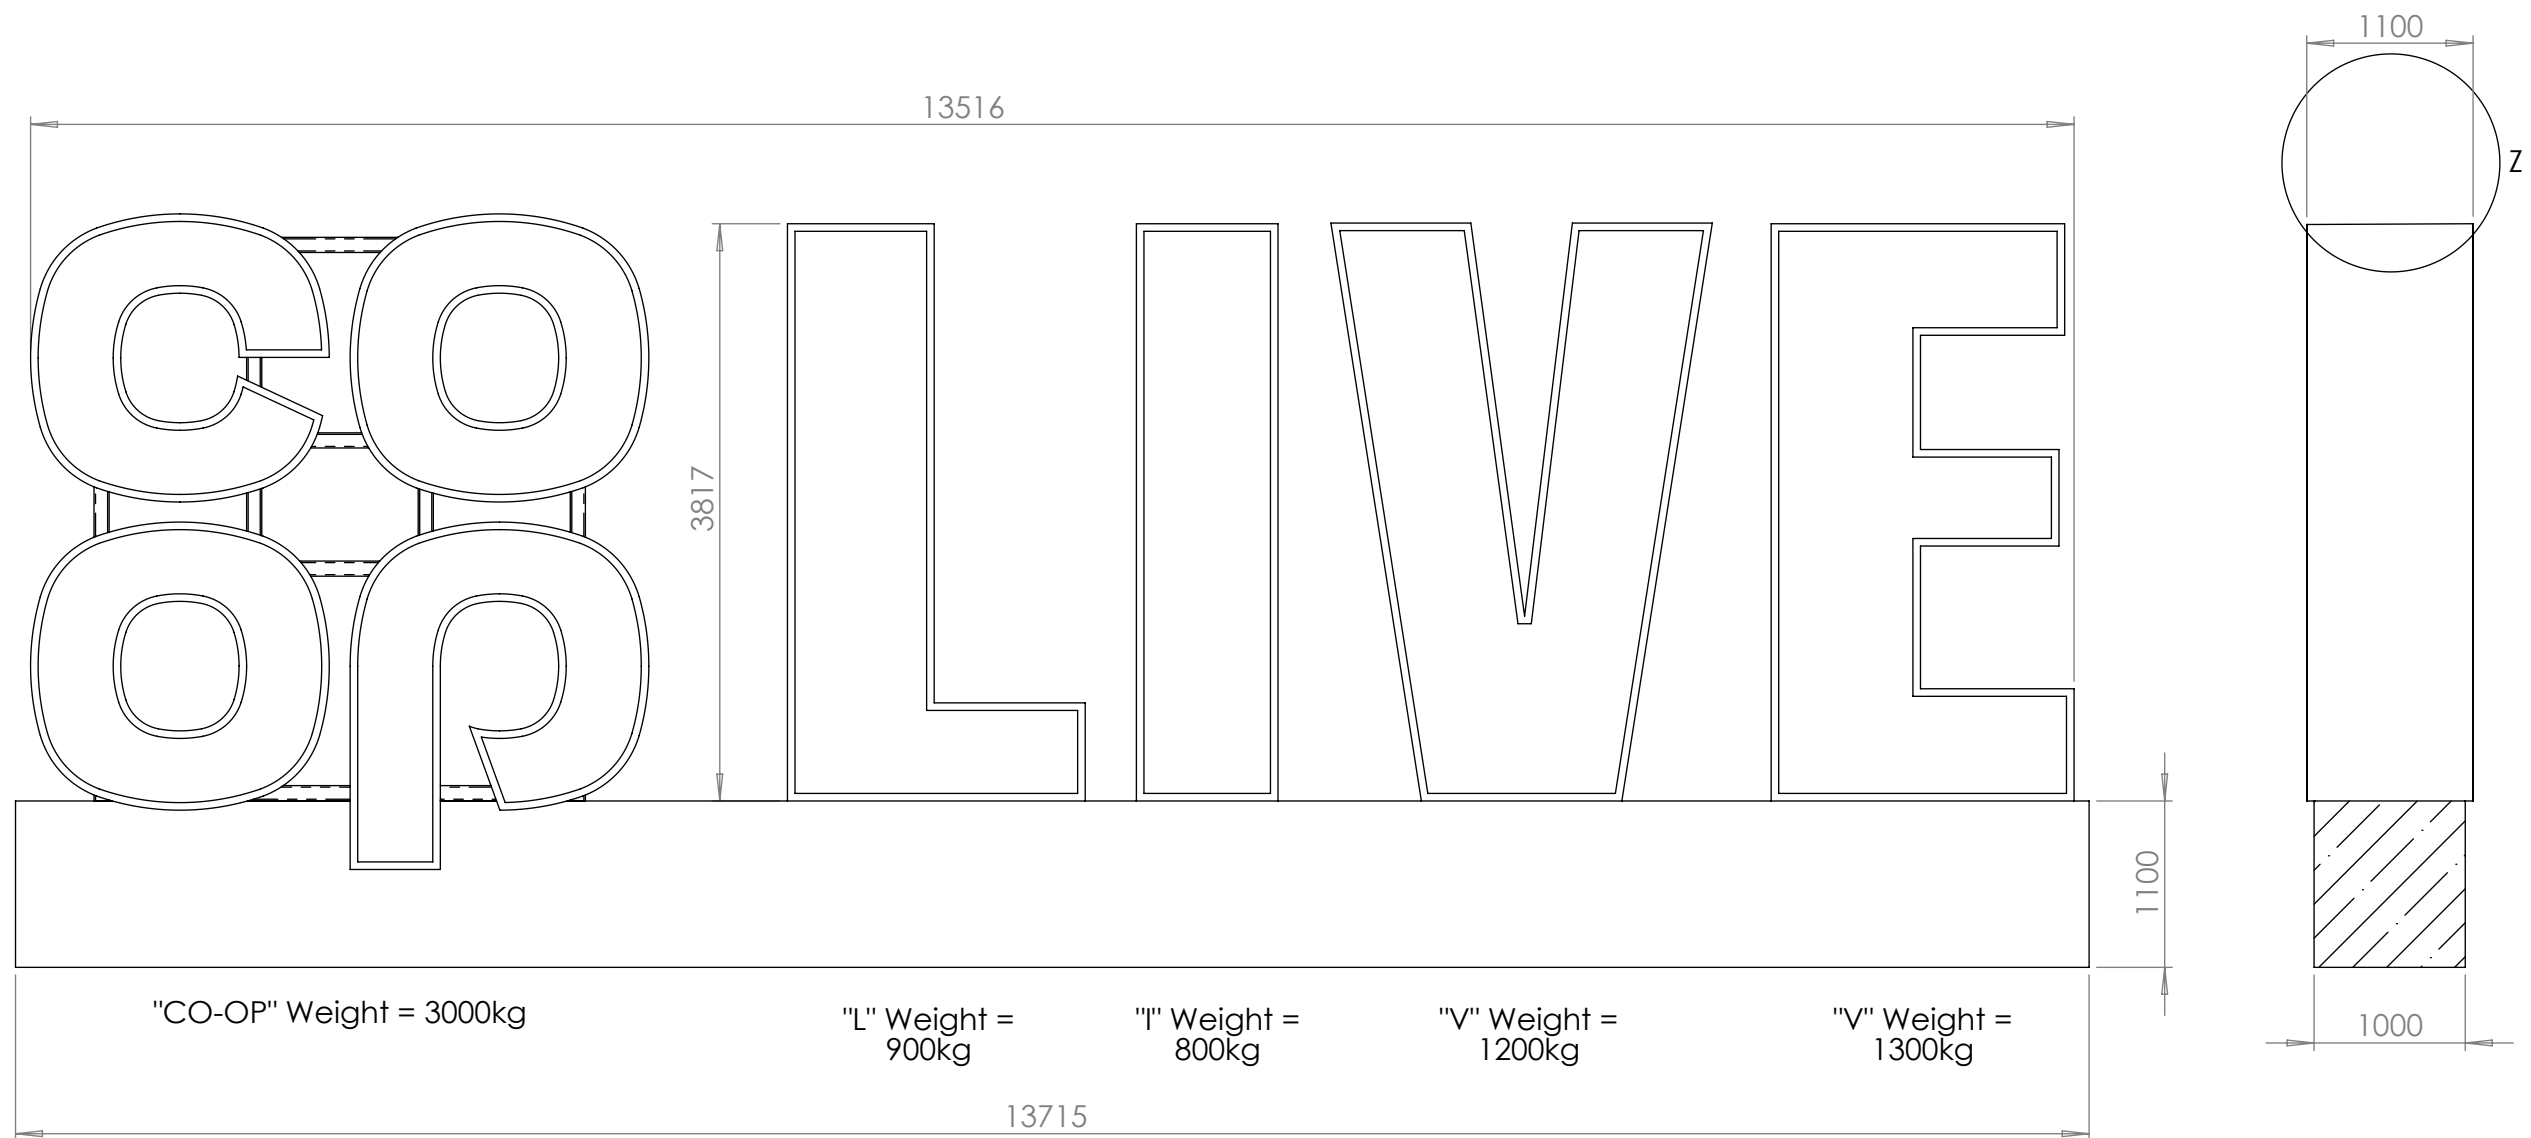

Draft

Weight @ 9.5mm Polycarb = 7200kg

- 01 - Landmark Sign**
- Large built up letters to read "COOP LIVE"
 - Letters to be manufactured from 2mm 316L grade stainless steel with a mirror polished external finish
 - 9.5mm clear polycarb letter face
 - Individual letter shaped Internal box section subframes, mechanically fixed down into reinforced concrete plinth
 - Anti slip paint applied to "LIVE" letter tops
 - Illumination - Static white LED's, (max output 300cdl sq/m)
 - Reflective film applied to rear of clear polycarbonate letter fronts
 - Inside of letter to be fitted with a full size piece of acrylic with mirror film applied to face
 - Internal perimeter of letters to be fitted with LED modules to bounce between reflective front and mirror film to create an "infinity mirror" effect
 - Size: 13516mm x 3817mm x 1100mm
 - Mounted 1100mm above finished floor level
 - Weight = 7200kg
 - Quantity: 1

PLINTH / MESH INSTRUCTION:

1. Concrete plinth to be formed by Main Contractor.
2. Formwork to be designed by Main Contractor.
3. Minimum concrete strength RC32/40.
4. Minimum reinforcement to be A393 mesh in all surfaces with 40 mm cover.
5. Widd Signs to provide templates for anchors to each letter so that Main Contractor can coordinate reinforcement with proposed anchor positions.
