

Important – Planning permission & notices of consent

Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee is payable for each request to discharge conditions.
- For advice on any of these matters, please contact Planning, Manchester City Council, PO Box 532, Town Hall, Manchester M60 2LA or email planning@manchester.gov.uk

Part 1 – Particulars of the application/development

Proposal: Variation of condition no. 2 attached to planning permission 128682/FO/2020 to allow for the repositioning of the dwellinghouses and amendments to the design of the apartment building.

Location: The Happy Man , Portway, Manchester, M22 1UB

Date of application: 22 February 2023

Application number: 136331/JO/2023

Part 2 – Particulars of decision

Manchester City Council gives notice that the development referred to in Part 1 has been **Approved** in accordance with the application and plans submitted subject to the condition(s) listed below (if any).

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner to resolve any problems arising in relation to dealing with the planning application.

Condition(s) attached to this decision

1) The development must be begun not later than the expiration of three years beginning with the date of planning permission reference 128682/FO/2020, that date being 8 December 2021.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

a) B/20/1267/01P - Site Layout Plan, stamped as received on 28 June 2023

- b) B/20/1267/02 - Location Plan, stamped as received on 2 November 2021
- c) B/20/1267/03A - Housetype Plans and Elevations (plots 1,2,8 & 9) , stamped as received on 3 December 2021
- d) B/20/1267/04A - Housetype Plans and Elevations (plots 3 & 4) , stamped as received on 3 December 2021
- e) B/20/1267/05A - Housetype Plans and Elevations (plots 5,6 & 7) , stamped as received on 3 December 2021
- f) B/20/1267/05H - Apartments Plans and Elevations, stamped as received on 22 February 2023
- g) B/20/1267/07B - Streetscene Elevation (sheet 1) , stamped as received on 2 November 2021
- h) B/20/1267/08B - Streetscene Elevation (sheet 2) , stamped as received on 2 November 2021

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Manchester Core Strategy.

3) No above ground works shall commence unless and until samples and specifications of all materials to be used on all external elevations of the development have been submitted to and approved in writing by the City Council as local planning authority.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Manchester Core Strategy.

4) Plot nos. 1 to 9 of the development hereby approved shall be used only as private dwellings (which description shall not include serviced properties or similar uses where sleeping accommodation (with or without other services) is provided by way of trade for money or money's worth and occupied by the same person for less than ninety consecutive nights) and for no other purpose (including any other purpose in Class C3 of the Schedule to the Town and Country Planning (Use Classes) Order 1987 (as amended), or any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order with or without modification).

Reason - In the interests of residential amenity, to safeguard the character of the area and to maintain the sustainability of the local community through provision of accommodation that is suitable for private residential purposes and to ensure the achievement of the public benefit identified pursuant to policies SP1, DM1, EN3 , H1, H6 and H11 of the Manchester Core Strategy and the guidance contained within National Planning Policy Framework including section 16.

5) Plot nos. 10 to 18 of the development hereby approved shall only be used as Assisted Living Apartments (Use Class C2) and for no other purpose (including any other purpose in Class C2 of the Schedule to the Town and Country Planning (Use Classes) Order 1987 (as amended), or any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order with or without modification).

Reason - In the interests of residential amenity and pedestrian and highway safety, pursuant to policies SP1 and DM1 of the Manchester Core Strategy.

6) Prior to the occupation of the Assisted Living Apartment hereby approved, a management plan detailing how they are to be run on a day to day basis shall be submitted to and be approved by the City Council as local planning authority. Thereafter

and in perpetuity the Assisted Living Apartments shall be run in accordance with the approved management plan.

Reason - In the interests of residential amenity, pursuant to Policies SP1 and DM1 in the Manchester Core Strategy.

7) No above ground works shall commence until details of the measures to be incorporated into the development (or phase thereof) to demonstrate how Secured by Design accreditation will be achieved have been submitted to and approved in writing by the City Council as local planning authority. The development shall only be carried out in accordance with these approved details. The development hereby approved shall not be occupied or used until the Council as local planning authority has acknowledged in writing that it has received written confirmation of a Secured by Design accreditation.

Reason - To reduce the risk of crime pursuant to policies SP1 and DM1 of the Core Strategy and to reflect the guidance contained in the National Planning Policy Framework.

8) The car parking hereby approved shall be laid out, demarcated and made available prior to the occupation of the residential accommodation hereby approved.

Reason - In the interests of pedestrian and highways safety and to ensure the satisfactory development of the site, pursuant to Policy DM1 in the Manchester Core Strategy.

9) Prior to the commencement of above ground works, details of the electric vehicle charging points referenced in the Air Quality Management Statement (stamped as received on 29 January 2021) and which are to be incorporated into the scheme shall be submitted to and be approved by the City Council as local planning authority. The approved charging points shall be installed and remain in-situ in perpetuity before the residential accommodation hereby approved is occupied.

Reason - To promote sustainable development and in the interests of residential amenity, pursuant to Policies DM1 and EN16 in the Manchester Core Strategy.

10) No development shall take place until surface water drainage works have been implemented in accordance with Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacements national standards and details that have been submitted to and approved in writing by the Local Planning Authority.

Reason - To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. This condition is imposed in light of national policies within the NPPF and NPPG and Policies EN8 and EN14 in the Manchester Core Strategy.

11) No development hereby permitted shall be occupied until details of the implementation, maintenance and management of the sustainable drainage scheme have been submitted to and approved by the local planning authority. The scheme shall be implemented and thereafter managed and maintained in accordance with the approved details. Those details shall include:

- o Verification report providing photographic evidence of construction as per design drawings; for the avoidance of doubt this must include all components of the drainage system with evidence of attenuation and flow control installed as-approved.
- o As built construction drawings if different from design construction drawings.
- o Management and maintenance plan for the lifetime of the development which shall include the arrangements for adoption by any public body or statutory undertaker, or any other arrangements to secure the operation of the sustainable drainage scheme throughout its lifetime. For the avoidance of doubt, this must identify the party responsible for maintenance and provide a schedule of maintenance tasks for each component, indicating frequency and nature of the task (which should be in accordance with manufacturer's specifications and/or CIRIA SuDS Manual C753).

Reason - To manage flooding and pollution and to ensure that a managing body is in place for the sustainable drainage system and there is funding and maintenance mechanism for the lifetime of the development, Policies EN8 and EN14 in the Manchester Core Strategy.

12) Before the commencement of above ground works, a scheme for the storage and disposal of refuse shall be submitted to and approved in writing by the City Council as local planning authority. The details of the approved scheme shall be implemented as part of the development and shall remain in situ whilst the use or development is in operation.

Reason - In the interests of visual and residential amenity, pursuant to Policy DM1 in the Manchester Core Strategy.

13) Before the development hereby approved commences, a report (the Preliminary Risk Assessment) to identify and evaluate all potential sources and impacts of any ground contamination, groundwater contamination and/or ground gas relevant to the site shall be submitted to and approved in writing by the City Council as local planning authority. The Preliminary Risk Assessment shall conform to City Council's current guidance document (Planning Guidance in Relation to Ground Contamination).

In the event of the Preliminary Risk Assessment identifying risks which in the written opinion of the Local Planning Authority require further investigation, the development shall not commence until a scheme for the investigation of the site and the identification of remediation measures (the Site Investigation Proposal) has been submitted to and approved in writing by the City Council as local planning authority.

The measures for investigating the site identified in the Site Investigation Proposal shall be carried out, before the development commences and a report prepared outlining what measures, if any, are required to remediate the land (the Site Investigation Report and/or Remediation Strategy) which shall be submitted to and approved in writing by the City Council as local planning authority.

Reason - To ensure that the presence of or the potential for any contaminated land and/or groundwater is detected and appropriate remedial action is taken in the interests of public safety, pursuant to policies DM1 and EN18 of the Manchester Core Strategy.

14) Above-ground construction works shall not commence until a hard and soft landscaping treatment scheme (including details of boundary treatments) based upon the indicative landscaping details shown in B/20/1267/01L, stamped as received on 22 February 2023, has been submitted to and approved in writing by the City Council as local planning authority. The approved scheme shall be implemented not later than 12

months from the date the buildings are first occupied. If within a period of 5 years from the date of the planting of any tree or shrub, that tree or shrub or any tree or shrub planted in replacement for it, is removed, uprooted or destroyed or dies, or becomes, in the opinion of the local planning authority, seriously damaged or defective, another tree or shrub of the same species and size as that originally planted shall be planted at the same place.

Reason - To ensure that a satisfactory landscaping scheme for the development is carried out that respects the character and visual amenities of the area, in accordance with policies SP1, EN9 and DM1 of the Manchester Core Strategy.

15) The development hereby approved shall incorporate the measures as set out within the Environmental Standards Statement stamped as received by the City Council as local planning authority on 28 January 2021. Within 3 months of the completion of the construction of the authorised development a verification statement shall be submitted to and approved in writing, by the City Council as local planning authority, confirming the incorporation of the specified measures at each phase of the construction of the development, including dated photographic documentary evidence of the implementation and completion of required works.

Reason - In order to minimise the environmental impact of the development pursuant to policies SP1, T1-T3, EN4-EN7 and DM1 of the Manchester Core Strategy and the principles contained within The Guide to Development in Manchester SPD (2007) and the National Planning Policy Framework.

16) DISCHARGED UNDER CDN/22/0653 - No development shall take place, including any demolition works, until a construction management plan or construction method statement has been submitted to and approved in writing by the Local Planning Authority. The approved plan/statement shall be adhered to throughout the demolition/construction period. The plan/statement shall provide for:

- o A construction programme including phasing of works;
- o 24 hour emergency contact number;
- o Expected number and type of vehicles accessing the site: o Deliveries, waste, cranes, equipment, plant, works, visitors; o Size of construction vehicles; o The use of a consolidation operation or scheme for the delivery of materials and goods; o Phasing of works;
- o Means by which a reduction in the number of movements and parking on nearby streets can be achieved (including measures taken to ensure satisfactory access and movement for existing occupiers of neighbouring properties during construction): Programming; Waste management; Construction methodology; Shared deliveries; Car sharing; Travel planning; Local workforce; Parking facilities for staff and visitors; On-site facilities; A scheme to encourage the use of public transport and cycling;
- o Routes for construction traffic, avoiding weight and size restrictions to reduce unsuitable traffic on residential roads;
- o Locations for loading/unloading, waiting/holding areas and means of communication for delivery vehicles if space is unavailable within or near the site;
- o Locations for storage of plant/waste/construction materials;
- o Arrangements for the turning of vehicles, to be within the site unless completely unavoidable;
- o Arrangements to receive abnormal loads or unusually large vehicles;
- o Swept paths showing access for the largest vehicles regularly accessing the site and measures to ensure adequate space is available;
- o Any necessary temporary traffic management measures;

- o Measures to protect vulnerable road users (cyclists and pedestrians);
- o Arrangements for temporary facilities for any bus stops or routes;
- o Method of preventing mud being carried onto the highway;
- o Methods of communicating the Construction Management Plan to staff, visitors and neighbouring residents and businesses.

Manchester City Council encourages all contractors to be 'considerate contractors' when working in the city by being aware of the needs of neighbours and the environment. Membership of the Considerate Constructors Scheme is highly recommended.

Reason: In the interests of safe operation of the adopted highway in the lead into development both during the demolition and construction phase of the development, pursuant to policies SP1, EN19 and DM1 of the Manchester Core Strategy.

Informatives

Building Regulations 2010

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

You can apply online at the following address:

www.manchester.gov.uk/info/100011/roads_parking_and_transport/1988/naming_and_numbering_of_houses_buildings_streets_and_roads/2

Highways Works - The footway and verge on the development side of Portway is being amended and it will therefore be necessary to undertake these highway alterations through S278 agreement between the developer and MCC which would include any required technical approval. The following link can be used:

https://www.manchester.gov.uk/directory_record/287709/permission_to_work_on_the_highways_-_section_278_agreements/category/355/highways_and_pavements

It is expected that all modifications / improvements to the public highway are achieved with a maximum carbon footprint of 40%. Materials used during this process must also be a minimum of 40% recycled and fully recyclable. Developers will be expected to demonstrate that these standards can be met prior to planning conditions being discharged. The developer is to agree the above with MCC's Statutory Approvals and Network Resilience Teams post planning approval and prior to construction taking place.

Regarding S278 agreements a deposit is required to begin an application, additional costs will be payable and are to be agreed with S278 team. A S278 is required for works to the adopted highway, minimum standard S278 technical approval timescale is between 4-6 months, TRO's can take 10-12 months. An independent 'Stage 2' Road Safety Audit will be required and the design may require changes if any issues are raised with all costs attributable to the Developer. A 'Stage 1' Road Safety Audit should be completed during the planning stage and a copy of the report (with Designer's Response) is to be made available to the Statutory Approvals Team upon request.

Informative for condition 9 - On-site/allocated parking: 1 EV charge point (minimum 7kW*) for each dwelling. Unallocated parking: minimum 20% EV (minimum 7kW*) charge points, and cable routes for all other spaces.

Informative for condition 10 - In order to avoid/dischage the above drainage condition the following additional information has to be provided:

- o A surface water drainage strategy report must be submitted to support the drainage proposal.
- o A fully labelled drainage layout presenting all drainage components, manholes, levels and FFLs must be submitted.
- o Evidence of maximised green SuDS components within the proposed drainage system must be submitted (utilising attenuation or infiltration). Suggested green SuDS components for this scheme include rain gardens, green roofs, tree pits.
- o Details of surface water attenuation that offers a reduction in surface water runoff rate in line with the Manchester Trafford and Salford Strategic Flood Risk Assessment, i.e. at least a 50% reduction in runoff rate compared to the existing rates, as the site is located within Manchester Trafford Critical Drainage Area. Betterment must be calculated from modelling of existing system.
- o Runoff volume in the 1 in 100 year, 6 hours rainfall shall be constrained to a value as close as is reasonable practicable to the greenfield runoff volume for the same event, but never to exceed the runoff volume from the development site prior to redevelopment.
- o Evidence that the drainage system has been designed (unless an area is designated to hold and/or convey water as part of the design) so that flooding does not occur during a 1 in 100 year rainfall event with allowance for 40% climate change in any part of a building.
- o Assessment of overland flow routes for extreme events that is diverted away from buildings (including basements). Overland flow routes need to be designed to convey

the flood water in a safe manner in the event of a blockage or exceedance of the proposed drainage system capacity including inlet structures. A layout with overland flow routes needs to be presented with appreciation of these overland flow routes with regards to the properties on site and adjacent properties off site.

- o Where surface water is connected to the public sewer, agreement in principle from United Utilities is required that there is adequate spare capacity in the existing

system taking future development requirements into account. An email of acceptance of proposed flows and/or new connection will suffice.

- o Front driveway surfacing >5m² is required to be permeable (utilising permeable paving, permeable asphalt or equivalent). Evidence of permeable surfacing must be demonstrated. <https://www.gov.uk/government/publications/permeable-surfacing-of-front-gardens-guidance>

- o Hydraulic calculation of the proposed drainage system.

- o CCTV survey of existing drainage system to understand condition, capacity, connectivity.

- o Construction details of flow control and SuDS elements.

Informative for condition 12 - The proforma/ Waste Management Strategy must include the following information:

Estimated volumes and types of waste produced by the development;

Details of internal and external stores for both waste and recycling, including any plans and designs;

Location of the proposed collection point and details of the route the collection vehicle will take;

Details of how waste will be transferred between stores and to the collection location; and

Details of number and capacity of bins proposed and collection frequency.

Other details as per 'Waste Proforma v1.0' - refer to guidance at:

http://www.manchester.gov.uk/downloads/download/6048/waste_management_strategy

Informative for condition 13 - Environmental Health recommend that an SI is undertaken to make sure that the soils for the garden areas are suitable for use, areas around the substation are sampled for PCBs, focus around the infilled ponds to check there is no gas risk and due to the age of the public house asbestos could be present in the building.

Date: 21 July 2023

Signed:

Julie Roscoe

Director of Planning, Building Control & Licensing

Manchester City Council, P O Box 532, Town Hall, Manchester M60 2LA

Notes

1. This permission refers only to that required under the Town and Country Planning Act 1990 does not include any consent or approval under any other enactment, byelaw, order or regulation.

2 If the applicant is aggrieved by the decision of the local planning authority to refuse permission or approval for the proposed development, or to grant permission or approval subject to conditions, they may appeal to the Secretary of State in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of the notice of the decision.

The Planning Inspectorate have introduced an online appeals service that can be used to make appeals online. This service is available through the gov.uk website – www.gov.uk/appeal-planning-decision . The Inspectorate will publish details of your appeal on the internet. Alternatively If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State has power to allow a longer period for the giving of a notice of appeal but they will not normally be prepared to exercise this power unless there are special circumstances that excuse the delay in giving notice of appeal.

If you intend to submit an appeal that you would like examined by inquiry then you must notify the City Council (planning@manchester.gov.uk) and the Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are on GOV.UK.

3. The statutory requirements are those set out in Section 79(6) of the Town and Country Planning Act 1990, namely Sections 70(1) and 72(1) of the Act.

4. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that they can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase their interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990

5. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to them. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.
