

Application number: 136519/FH/2023

Proposal: There are three parking space belong to my property (end of terrace). They are right next to my house. I would like to enclose it by fencing., Otherwise my land is not being used effectively; 1. No parking is possible because there is no way to ensure that there are no other vehicles or obstacles in the open space next to it, 2. It is often used by neighbours as a place to put garbage bins, which creates some mess. As this is an open space, it does not block the view or the light.

Location: 7 Maidford Close, Manchester, M4 7EG (Title number **GM566299**)

Planning area: Below figures show the boundary of the area from different views that I would like to enclose and the fencing product specification is also provided. It's an open space (3x3 grid) next to the property and the three grids immediately adjacent to the house are part of the property (see below **Land field plot**). The dimension is with length **14m** and width **2.4m**. This area will be fenced with a total height of **1.83m** with three sides (except for the side immediately adjacent to the house) and it's marked by the **blue line**.

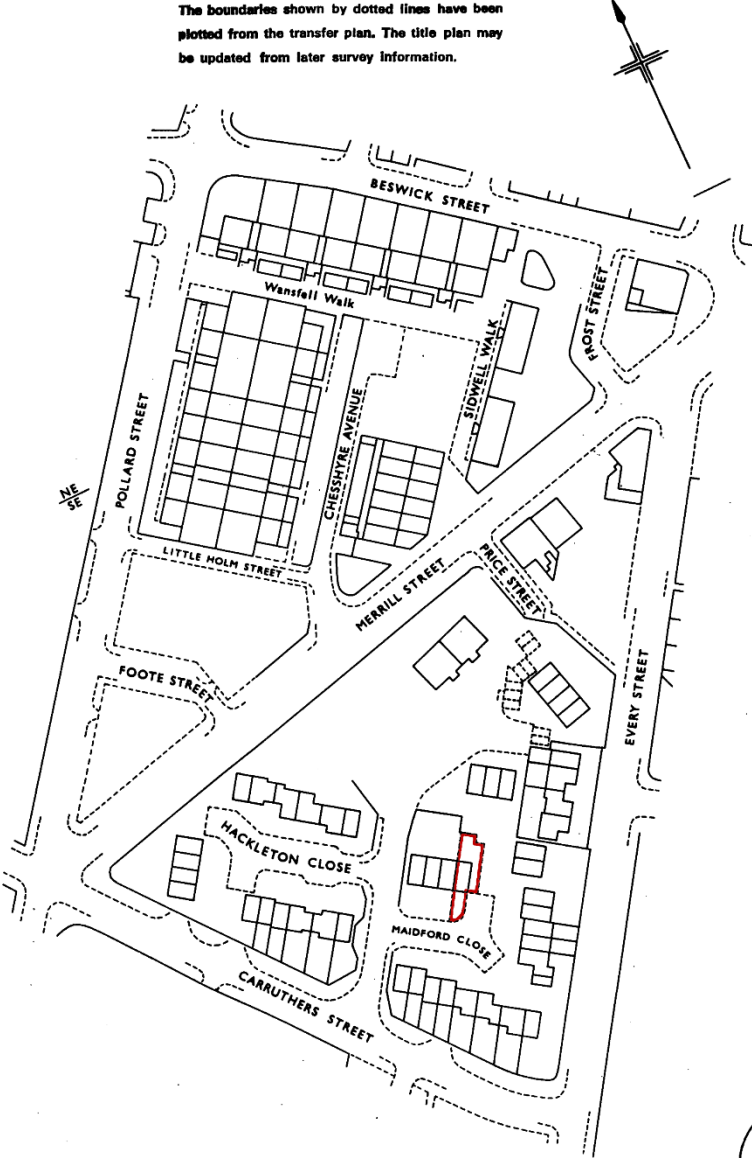

Land field plot: Title number GM566299 from HM Land Registry shows the property's boundary. The planed fencing area will fall within this property.
