Date: 12th May 2021

Dear Sirs,

Secured by Design, Unit 2, Sunbank Lane, Airport City (South)

I refer to the progress made on site in relation to achieving the Secured by Design (SBD) award for the above development. I inspected the completed sections of the site with you on 5th May 2021 and I have received documentation and photographic evidence of the subsequent works carried out at the above site. Having reviewed this information I am satisfied that the following areas of construction have been built in accordance with SBD requirements:-

- Building shell
- External and internal doors / shutters
- Windows
- External works – lighting, boundary treatments and landscape works
- Cycle storage

Overall the development is on course to achieve the SBD award if the remaining elements of build are included in accordance with the physical security requirements stated in section 4 of the crime impact statement ref: 2019/0469/CIS/01. These comprise:-

- Access controls
- CCTV
- Alarms

A further inspection of the site will be required to verify that these items have been satisfactorily installed prior to awarding Secured by Design accreditation.

Yours faithfully,

Michael Craig DipLD CMLI
DfS Consultant
