Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:I object to the planning of this building on the basis of the height of the building which might cause an issue with the lighting in our building at Jackson's warehouse. If this building is similar height to ours then it wouldn't be an issue. Also the use of a car park to build more apartments mean there will be less parking space in town and with most residents in towns,. A lot of people do drive and this would create an issue with the traffic in town. I would love to see if they do provide sufficient parking for the new apartments and new parking being provided for people who commute to town as these existing parkings would now be gone.
