## Premium Amazon Cycle Shelter

POA

The Premium Amazon Shelter is born from one of our most popular ranges, the Amazon Eco range, featuring an uprated 80mm box section mild steel frame, and FSC Sapele hardwood cladding.

Available with a host of options, such as swing or sliding gates, electronic lock, guttering and a green sedum roofing.

Order today and your project will benefit from the improved satisfaction of those who can cycle to their destination, safe in the knowledge they'll have somewhere secure and convenient to leave their bike.

If you're interested in custom options, you can contact us for further details or book a free site survey. Our experts can visit your project and work out layout plans that are ideal for your requirements. They'll help you maximise the value to be gained by installing bike storage.
