## Common Construction EWC Codes

| Material                                                              | EWC Code (*hazardous material) |
|-----------------------------------------------------------------------|--------------------------------|
| Biodegradable waste                                                   | 20 02 01                       |
| Bricks                                                                | 17 01 02                       |
| Chlorofluorocarbons, HCFC, HFC                                        | 14 06 01*                      |
| Concrete                                                              | 17 01 01                       |
| Construction materials containing asbestos                            | 17 06 05*                      |
| Contaminated soil and stones                                          | 17 05 03*                      |
| Gypsum plasterboard                                                   | 17 08 02                       |
| Halogenated solvents and solvent mixtures                             | 14 06 02*                      |
| Insulation                                                            | 17 06 04                       |
| Insulation containing asbestos                                        | 17 06 01*                      |
| Interceptor sludges                                                   | 13 05 03*                      |
| Mixed concrete, bricks, tiles and ceramics                            | 17 01 05                       |
| Mixed construction & demolition waste                                 | 17 09 04                       |
| Mixed metals                                                          | 17 04 07                       |
| Mixed municipal waste                                                 | 20 03 01                       |
| Pressure containers containing dangerous substances (empty canisters) | 16 05 04*                      |
| Mixed packaging                                                       | 15 01 06                       |
| Paper and cardboard                                                   | 20 01 01                       |
| Plastic                                                               | 17 02 03                       |
| Septic tank sludge                                                    | 20 03 04                       |
| Soil and stones                                                       | 17 05 04                       |
| Solvents                                                              | 14 06 03*                      |
| Street-cleaning residues                                              | 20 03 03                       |
| Tiles and ceramics                                                    | 17 01 03                       |
| Wood                                                                  | 17 02 01                       |

Please note that the above list is not exhaustive, for further information contact Sarah Thomson at head office.

# EXAMPLE WASTE TRANSFER NOTE

A waste carriers licence number should be provided for the company taking the waste off site

Ticket should always have a reference number

site address of where the waste has been produced should be stated

A signature or name of the person taking possession of the waste and removing it from site is required

Date of waste transfer should be stated

The quantity of waste must be listed eg. size of skip or wagon (20T or 8 wheeler

An SIC code should be listed (this is a reference code to say why the waste been produced) 41.20 is the code for the construction of commercial buildings.

Every type of waste has a European waste code (EWC) assigned to it, this should be listed on the ticket. A mixed waste skip should be listed as 17 09 04, if the waste is segregated (eg Metal, plasterboard) a different code should be listed (A General list of construction codes is attached to the SWMP procedures)

A waste Management licence number/address should be listed to show where the waste is been taken to

This statement should be on every waste ticket

A signature from a site staff member is required to authorise the waste leaving site

3082

Carrier Number CB/051057Z  
Waste Management Number 1516  
VAT Reg. No 734419434

Waste Transfer Note (WTN): **Nº 125923**

## DISCLAIMER (please read carefully)

You will be signing to accept that Calder Valley Skip Hire Ltd. does not accept any responsibility for damage to your property or the public highway while the skip is being delivered, collected or while on hire.

Calder Valley Skip Hire Ltd. shall not be liable for any damage caused to a customer's land, including his or her driveway, in either of the following circumstances:

1. Where the skip is overloaded

2. Where in any event the driveway surface is insufficient to support the skip. Customers should be aware that a tarmac surface of less than 150 millimetres in thickness may not support a skip loaded or unloaded and that damage to the driveway may be caused as a result.

I agree that Calder Valley Skip Hire Ltd. does not accept any responsibility for damage to my property or the public highway.
