Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The front of this building could be improved to maintain the historical significance of the building. If it is a necessity to demolish a community pool, at least keeping the entrance, it would improve the look of this standardised new build flat development. The male and female entrances should be maintained. This development is in keeping with many lazy developers in Manchester, demolish the whole building without keeping anything to cherish. The buildings on Kennedy St in Manchester should be an example. Maintaining the Bootle street police station another. These historical buildings mean a lot for communities they once served. Better still keep the pool and build above, the over 55s would appreciate a community pool. So would everyone.
