Hello,

My name is Elena and I live at 36 Fog Lane, as a resident of the area I wanted to express my objection and concern regarding planning application 135908/TEL/2023 because of the following reasons:

1. This is a residential area, I feel this antenna will be an eyesore to all living here; It would double the height of houses just a few feet away. Could you please consider best suited commercial locations near buses/tram stops and/or shops/restaurants.
2. I believe that other roads have been ruled out on the basis that they are residential, shouldn't the same apply to us?
3. I believe the location is not even close to the developer's ideal key location, it's in fact half a mile away from where they would like the mast to be.
4. I feel the mast should be placed on any other location (that is not green) for better coverage.
5. Personally; I worry about potential health impact, I'm told risks are not proven but I believe they are not completely discarded either.

Regards,
Elena López
