You don't often get email from ringorrjr@outlook.com. [Learn why this is important](#)

Mr. Mitchell.

I am in the throes of preparing a response to this application and it would be useful to have some additional information.

Is it possible to see the Council's map of the existing telecommunications masts in the area. I am particularly interested in the area bounded by Wilbraham Rd/Mosely Rd, Kingsway, Princess Parkway and Barlow Moor Rd/Wilmslow Rd to Parrswood. Would we have to visit your office to see the plans?

Can you also tell me how many masts are shared between competing companies, and how many companies are involved at this stage. Quite a lot of existing masts are in clusters which suggests they are in competition rather than sharing facilities!

Is there anywhere we can view a mast of the type and height proposed in a residential area and as close to a house as the one in this proposal?

Ray Routledge 12 Cranmer Rd M20 6AW
