To: Adam Mitchell <Adam.Mitchell@manchester.gov.uk>

You don't often get email from val@theleinhardts.force9.co.uk. [Learn why this is important](#)

Dear Adam,

I wish to object to the Installation of a 15ft high telecommunications mast for the following reasons.

It is not even close to the developer's ideal key location and is over half a mile from their ideal location where they wanted to locate it,

Other roads have been ruled out because they are RESIDENTIAL so therefore why should it be installed in the proposed location which is also highly residential?.

There are various commercial locations that could accommodate it and would not cause any disturbance to residents. For instance there is a mast already sited on the corner Wilmslow Rd /Lapwing Lane which has not affected any residential areas. Surely, the new mast could be similarly sited on a main road which is nor residential.

Manchester City Council is obliged to consider and examine commercial locations but with this proposal it has FAILED to do so.

I trust that you will turn down this most objectionable application.

Yours Sincerely

Geoffrey Leinhardt (11 Essex Avenue Manchester M20 6AN)
