

Manchester Piccadilly Station

CCTV Renewals

Listed Building Consent

Cameras for which a full Listed Consent Application is required

Key:

Colour:

Existing Equipment

Black

Equipment as installed at the present time.

Equipment to be Replaced

Blue

Full Listed Building Consent is sought for existing equipment to be replaced with similar equipment in the same position using the same fixings, containment and conduit. **Justification**: the proposed works do not detract from either the site, historic, or heritage context of Manchester Piccadilly Station; or otherwise significantly alter its appearance.

Equipment to be Recovered

Green

Full Listed Building Consent is sought for existing equipment and associated fixings, containment and conduit that is to be decommissioned and permanently removed from site. **Justification**: The the proposed works do not detract from either the site, historic, or heritage context of Manchester Piccadilly Station; or otherwise significantly alter its appearance and the resultant legacy damage will be made good to a high standard, which will enhance the preservation status of those parts of the building affected.

Equipment to be Enhanced

Magenta

There is no existing equipment to be enhanced. These drawings are included for contractual completeness only.

New Equipment to be Installed

Red

Full Listed Building Consent is sought for new equipment to be installed. **Justification**: The the proposed works do not detract from either the site, historic, or heritage context of Manchester Piccadilly Station; or otherwise significantly alter its appearance. The new equipment and the resultant legacy damage will be made good to a high standard, which will enhance the preservation status of this part of the building.
